COMPOSITE HIGH SCHOOL

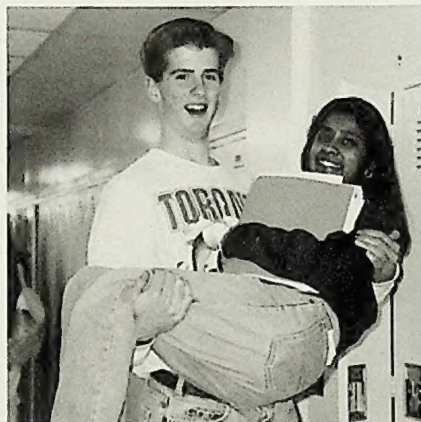

# Map Of Yesterday

Welcome to M.E. LaZerte's *Map Of Yesterday*. As you leaf through this map you'll find it to be quite unique. For instance, we have eliminated almost all roads, signs, and symbols. You'll also be pleased to know that we eliminated all directions; be it where to go or how to get there - they're gone. In their place we have put where *you* have come from.

As you travel through this book you'll recognize friendly faces, and remember all of those fun times which made last year so memorable. Perhaps you were in the band, or played football, or graduated, don't worry - it's all mapped out here, just waiting to be discovered. A few words of advice before you turn the page: the speed limit is 10 pages per hour, so shift into low gear and enjoy your voyage through the *Map Of Yesterday*.

Above: Little does Veda Maharajh know, but in a few seconds she will be having a close up look of the this inside of a locker thanks to Graham Michaels.

Above left: Viewing Aaron Rustad, Danny Chernichan, Mark Recchi, Bobby Bhullar, Brent Findling, and Nathan A. Groat in this guilty pose makes one wonder what really goes on in the library.

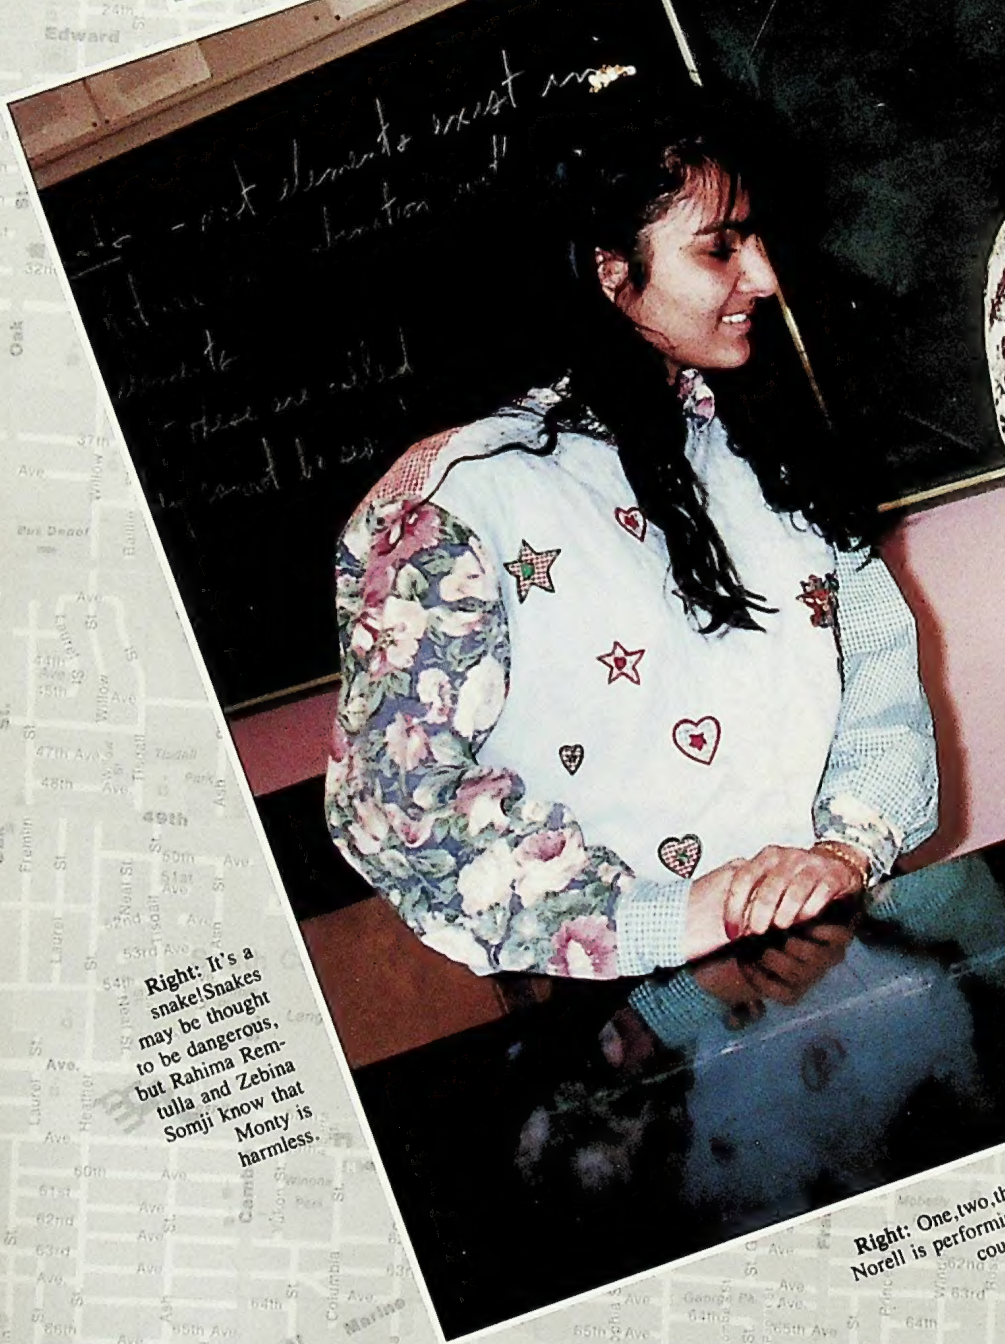

Left: The expressions of Dion Kelly, Lana Buerger, and Lisa Russell say it all about this year's voyage through "*The Map of Yesterday*" - Fantastic!!!

Left: Peter Lam and Harnaik Dhaliwal can't be without their "mummy" (Kim Malonik).

# Life in the Fast Lane

School is more than just homework, exams and boring lectures; it is a part of life - student life. Even though it is sometimes tedious and tiresome, there are high points to the school year. To change our attitude and to pump up enthusiasm, Student Council brought us Greg Atkinson and his hilarious rendition of "Beauty and the Beast". There was also the en-

joyable Mark Scharenbroch with his comical speech on love and life to get students off to a running start. If that wasn't enough to make school more stimulating, there was the fun Pumpkin Carving contest and spirited Dress-up at Hal-lowe'en. Students showed their thoughtfulness by sending their friends Candy Grams and preparing food hampers for needy families at Christmas. Along with these special activities, there were also school dances, Lip Sync, and clubs to join. To show that school was not only homework and tests, students joined sports clubs, teams, Student Council, Peer Support and Yearbook. The rest of the population revealed their Voyageur spirit by cheering at all the games and by supporting the various clubs.

Along the way, through all the stress and pressures of high school, there was spirited liveliness as the Valentine's dance and the successful Thirty Hour Famine approached. The year came to a complete stop with grade 12 Commencement and Graduation with friends saying sentimental goodbyes knowing that new faces would appear in hallways in the years to come. So whenever somebody asks "What does school have to do with life?" just remember all the dances, activities, clubs, motivational speakers and the other fond memories while on the road into your future.

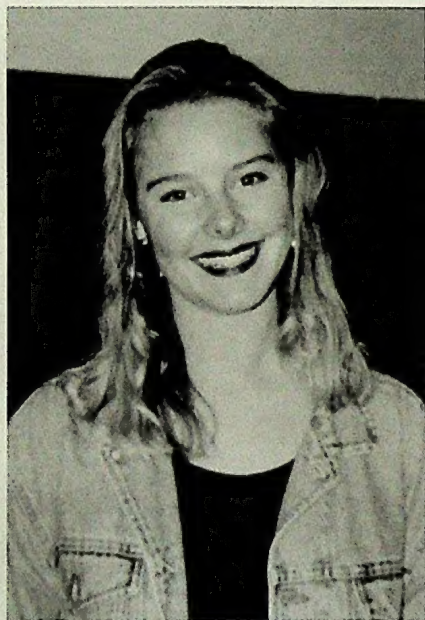

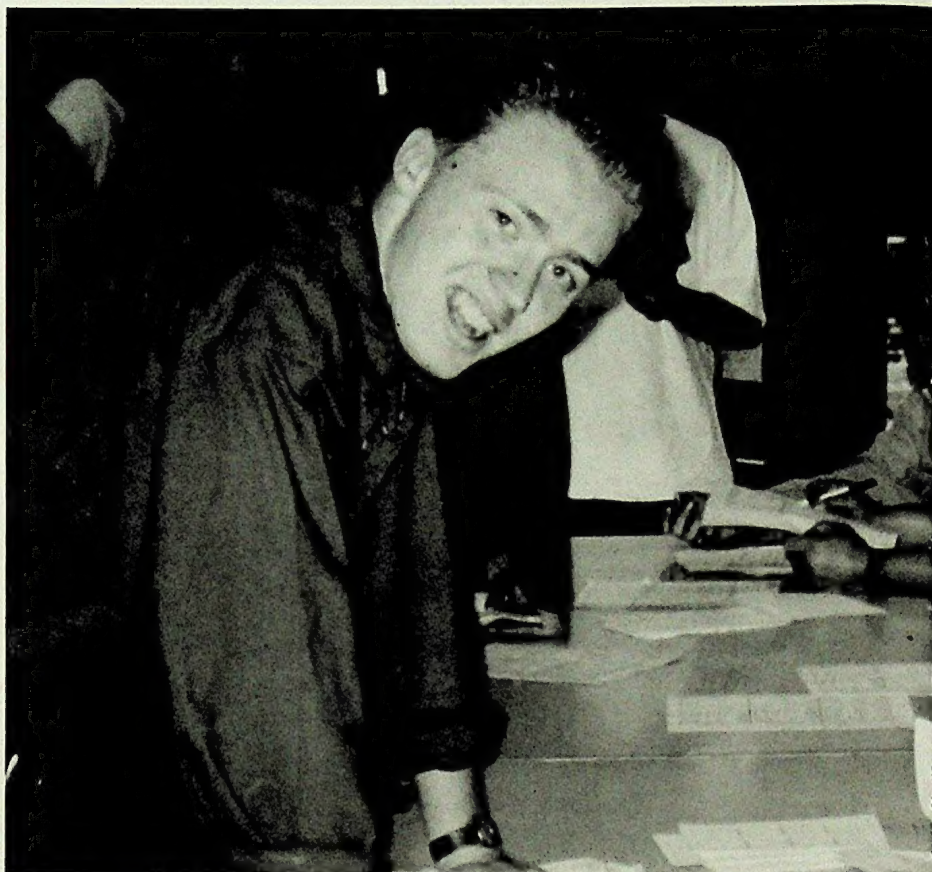

Right: Taking a look at Sajid Khan, one wonders whether or not the Jell-o that Victoria Leung is shovelling into his mouth is going in or coming out.

# On The Road Again

At the beginning of school, everybody cheered. Another long boring summer had ended and everyone was happy to get to work. Yeah right! Registration frustration began on the 25th of August and ended on the 27th. Pure unadulterated madness. Students who volunteered to assist in the madhouse registered early and laughed while the rest of the plebeian population rushed, wept, pulled their hair out, and mumbled pujorative words about courses which seemed to be disappearing like water in sand. Didn't need that course anyway. Many people burst blood vessels during arena scheduling, but with some heavy help from counselling, all minor injuries were taken care of.

Above: Despite the harrowing process of arena scheduling, Colleen Tyson manages to produce a toothy grin.

Right: Jaime Wolansky and Mrs Tewitz have the time of their lives while people register.

**Left:** Greg Dumanoir's face lights up as he finds the solution to all of Shawn Ewasiuk's registration troubles.

**Below:** Hard at work, Marie Kuczaba, a student helper during registration, handles the immense amount of paper work.

**Left:** Elana Bayda and Wilson Quan narrowly escape with their grins from the first gym of fees, pictures and bus passes. Now for the second gym - and the madness.

# First And Goal

The football field outside M.E. LaZerte School became full of tired athletes on September 4 as our school hosted the annual Football Jamboree. One thousand football players collided during the six hour event which pitted nineteen schools from Edmonton and Northern Alberta against one another. Coaches, players, and parents alike were in for an afternoon of bone

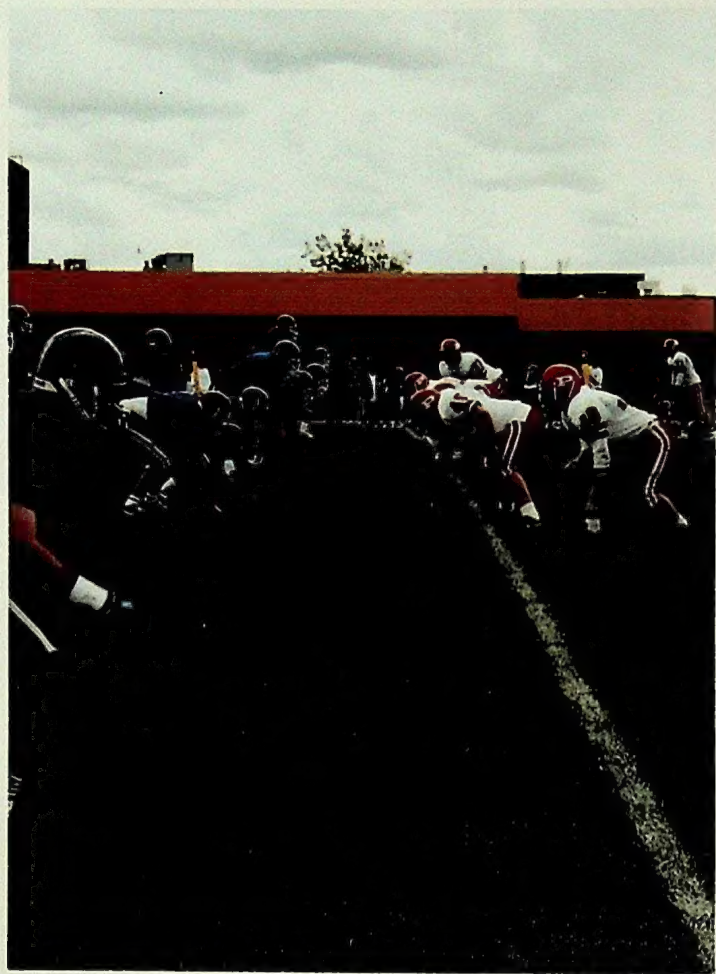

crushing, entertaining football. Each game varied; they shifted from wide open, end to end play to virtual deadlock. In a display of spirit and enthusiasm, Miss Saley led staff and Student Council in an effort to keep all of the players and coaches fed. As one could imagine, that is one very difficult task. We salute everyone who made this jamboree a success. Great Work!

Above right: T-minus three seconds for impact; brace yourself.

Above: You put your left foot in and you shake it all about, you do the hokey pokey and you turn yourself around...Come on guys!

Right: Squaring off - the Storms and the Stingers each try to get a hold on the football.

Above: Is it a leaning post? No! It's Jackie Edge trying to keep Mr. Dunwoody from falling over.

Left: Ahhh, the sound of bones crushing on a mid-autumn day can compare to nothing else.

# Pep Rally

On October 22, 1993 students filed into the gym for the second annual Pep Rally. There was great anticipation for the debut of M.E.L.'s Step Team. Introductions were made of various teams and clubs throughout the school such as the volleyball teams, swim team, and cross-country, Ambassador's Club and Radio Club. Afterwards, four students were selected from the crowd to challenge each other for the grand prize. They

had to stuff as many balloons as possible into their jerseys to resemble football players. The enthusiasm grew as they attempted to throw footballs through tire tubes. As the Pep Rally neared its end, the Step Team came out. The crowd went wild. The performance was incredible. Overall, the students had a very enjoyable time, even though the gym was packed as tight as a can of sardines.

# Running On Empty

On February 18th and 19th a group of a M.E. LaZerte students participated in the third annual 30-Hour Famine. All the proceeds raised from the event went to fight hunger in the Third World. Participants adopted a "homeland" country and were split into groups with which they made flags and learned about their homeland. Fun-filled activities such as Tangle, basketball, Trivial Pursuit, and Karaoke helped to direct the participants' attentions away from FOOD! Games and movies kept most of the people awake throughout the night but everyone had a lot of fund and even though breakfast on the 19th at 7:00AM was a major relief to everyone, there was no stampede to the Cafe. Well, anyway, everyone really enjoyed their breakfast. Again, the 30-Hour Famine was a great success, thanks to all the organizers, participants, and sponsors. See y'all next year!!!

Above left: They are well built slicers, dicers, mixers, and choppers. Oh, we're not talking about Adam Beachell, Dave Mudaliar, and Tanya Teed; we're talking about those spatulas.

Far left: Many of us thought the phone was glued to Angela Kellman's ear but, six hours later she proved us wrong.

# Ghoul Gazing

## Hallowe'eners Invade M.E.

The air felt frigid, and the blame for this could be heaped upon the spooks of Hallowe'en as the cold suspiciously arrived a few days before October 31st as it does nearly every year. Some of these spooks could be seen parading in the warm rotunda in creative costumes and clever disguises. A great turn out of laughing spectators crowded around the entertaining contestants of the costume contest which was held simultaneously with the pumpkin carving contest. The crowd cheered as Crystal Emberly was announced first place winner, dressed ingeniously as a toilet. Second place was won by Holly Perreault who appeared as a bookworm. Snow White, the three amigos, and the cheerleaders portrayed respectively

by Janet Dymichkowsky, Carrie-Lynn Coghlan, Jaime Wolansky, Lesley Ewoniak, Terry Cox, and Matthew Ritchie tied for third place. While the costume contest concluded, the messy pumpkin carvers continued to work diligently to transform their ordinary pumpkins into works of art. The first prize of this contest was awarded to the grinning Porky Pig carved by Gary Wong, Peter Lam, and Dave Johnson. As the time neared the end of lunch hour, the mess left by the pumpking carving was cleared out, and maybe when Hallowe'en passes, the witches and goblins would be kind enough to return the cool, but warmer, weather.

Above: A fan of jazz! Tasha Hills gives a kiss to the grinning pumpkin created by her team.

Right: First place winners Gary Wong, Dave Johnson, and Peter Lam display their masterpiece.

# Prime Time

An air of politics descended upon M.E. LaZerte on October 12, 1993 as we prepared for a visit of great importance. It was on this day that the Prime Minister of our nation, Kim Campbell, chose to speak with our school and our community.

Before the PM arrived the students and the press were on pins and needles as we waited. Finally, Carrie-Lynn Coghlan stepped up to the podium and introduced the Great One, and I don't mean Wayne Gretzky. He probably would have met a

warmer welcome; however, our school did have some very valid questions for the leader of the Great White North. Highest among our own criteria were education and the economy. The job opportunities within the next ten years were of great concern to those of us entering the workforce. Through the question period, the government learned that our generation has plenty to contribute to society. Overall, our school was a good host to our visiting dignitary.

Below: What do you mean we're going to lose the election?

Above: Carrie-Lynn Coghlan, our own Prime Minister of sorts, addresses the crowd.

Right: "And so I believe this with this agenda, we'll win a majority government." Okay, whatever.

# PCL Partnership

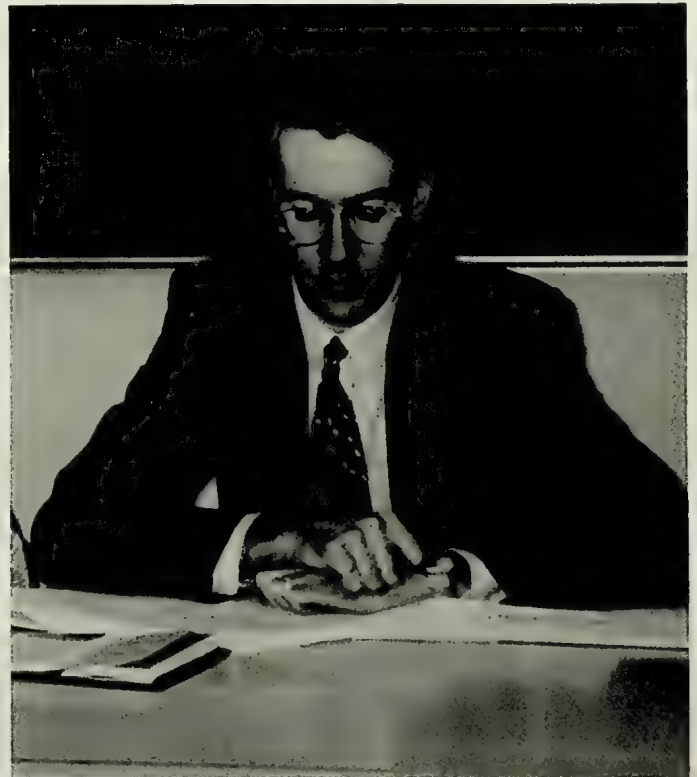

An obligation of any large company is to be responsible within the community it serves. PCL does just that. A large industrial firm with a plant in Edmonton, PCL has chosen to become involved in the education of M.E. La-Zerte's student population. As well as providing funds and resources, the "Partners in Education" also present many tools to further our schooling. There would not be such an amiable relationship between PCL and M.E.L. if it were not for the hard work of teachers

and staff such as Mr. Cameron, Mr. Auton, and Mr. Park. They strive throughout the year to stay on track and plan the future. In fact, PCL/MEL was recently awarded for having the best business partnership in the province. The benefits of this union are not merely one way, for many of our graduates go on to lead successful careers with PCL. The future will be much brighter through PCL's determination to improve society through education.

# Lyp-Sync

Another year is rolling by with new songs hitting the charts and new stars rising to the top. Here, at M.E. LaZerte, we are blessed with the talented youths that took to the stage, joining the best of them, hoping to cash in on prizes for the most creative, most unique, and most exotic lyp-sync entry. As usual, people were fascinated with the splendid Michael Jackson impression performed by Dwayne Ellis; he proved to be hip and hot! Student Council's "In the Jungle" had people laughing as Ms. Saley and Ms. Stewart put their feet up as some of the members donned unusual attire and performed in exhibition. Who were the boppers behind the couch? - Lisa Hoskins, Jaime Wolansky, Lesley Ewoniak, and Allison Fallowfield, perhaps.

The Jackson Four donned their white suits and silver bow ties to perform for the excited audience. The Potato Pickers took a different approach in using their vocal talents to make their act unique. First place was awarded to Dwayne Ellis, second place went to the Jackson Four, and third place went to the Potato Pickers who all received cash prizes. Gary Wong and Mickey Sahib played it cool on stage as they hosted the noon hour extravaganza. Congratulations to all, on a job well done! Thank-you for all of the support from the audience; M.E. LaZerte made a generous donation to Santa's Anonymous. As well, canned goods and other foods were donated to the food bank. What a great show of Christmas spirit!

# Gettin' Revved

## Students Get Pumped for Year Ahead

On September 3, 1993 the large gym was transformed from a normally sweaty, stuffy classroom to a sweaty, stuffy auditorium with one thousand odd people in it. The feature presentation was Beauty And The Beast directed by Greg Atkinson, motivational speaker, director, singer, song writer, (you get the picture). The supporting roles were played by M.E. LaZerte students while the lead roles were played by Mr McKenzie who played the "beauty" and Miss Stewart who played the beast. (No, that's not a misprint!) Greg's power-packed presentation pumped up the crowd while at the same time sent a strong message about love. His message to all of us: forget about all of the conditions of loving someone like "I'll love you if..." or "I love you because..." and just say "I love you - period." On that note the students left the gym feeling pumped and ready to tackle another school year, and left for their next class where they told their teachers

just how much they loved them (perhaps).

Next up was Mark Scharenbrock to top off everyone's motivational fuel tank. Mark took his audience on a time trip all the way back to the first grade. He politely pointed out to us that we have lost the flair for life. Just walk into any grade one class and you'll see an abundance of hands in the air whenever the teacher asks a question; in high school you'll see an abundance of blank faces, or if there is a hand in the air it's most likely to ask "Can we just sleep?" he reminds us.

To top the whole thing off Mark led the entire gym in a song of Boomba, Eh (The Canadian version of Boomba, Hey). Now, with their motivational fuel tanks full the students of LaZerte set off for their next class singing Boomba, Eh and remained wide eyed and bushy tailed in all of their classes, even the morning ones. Okay, so maybe they didn't sing.

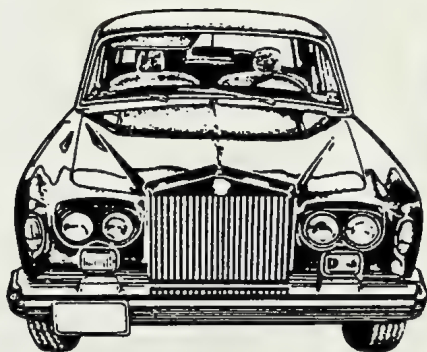

Left: Get that arm up there! Mark Scharenbrock does a fair imitation of an average student in a classroom at M.E. LaZerte.

# Snowflake Festival

When the Snowflake Festival rolls around, what else can you say except that you **HAVE TO BE THERE?** To put it in a few words, it was great! The collage of music, comedy, and drama displayed was almost indescribable.

The Cool Yule Duo, consisting of Mrs. Nordheimer and Mr. Jones, played a rendition of Silent Night. The Drama 30's did a hilarious production called "Christmas on a Bus" and the science department played carols on beakers filled with water.

All in all, the Snowflake Festival was, once again, a hit but to get the full effect, you had to be there.

Above: No, they're not sleeping drunks. They are actors at the Snowflake Festival.

# It's A Party

Student council invited the P.C.L. members, the M.E.L. staff, and their families to another great Christmas party. Both the parents and children enjoyed the various events. The crafts corner and cookie decoration were held in the cafeteria where the children made Christmas decorations for the Christmas tree standing in the rotunda. In the gym, volleyball and basketball games were played, but the busiest area was the Ken David room where the children got their picture taken with Santa Claus. Natalie Balanko got the

pleasurable job of getting them to smile when all they wanted to do was get their gift and run. The day was ended with Christmas carols led by Mr. Smith accompanied by Mr. Jones and some members of the concert band. The final event was the lighting of the Christmas tree which was plugged in by one of children, but this day could not have been possible without the meticulous planning of Jill Griffiths, Colleen Tyson, and Mr. Cameron. Everyone had a wonderful time and hopes that next year will be just as much fun!

Top left: Elves sure have grown! Al Jones has the perfect elfish grin, but he's missing some pointed ears.

Upper left: These boys seem to have the potential to be famous gourmet chefs.

Right: This is a rare moment indeed. All of Mr. Jones' music class are playing in harmony. At least we think they are.

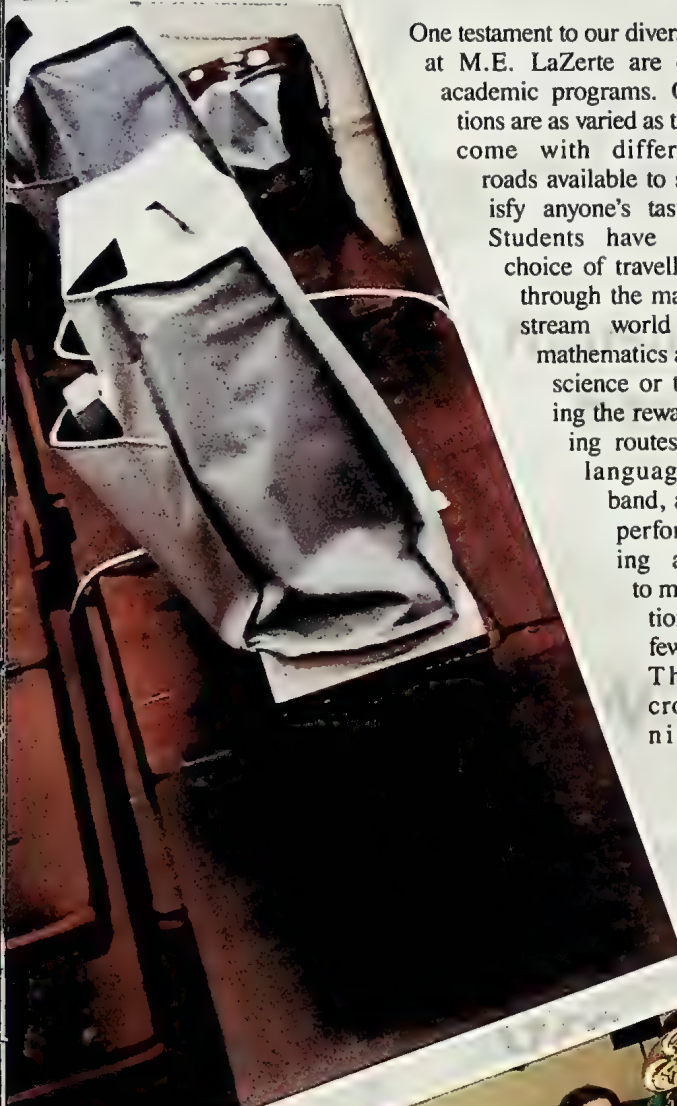

# Exit 96: Academics

One testament to our diversity at M.E. LaZerte are our academic programs. Options are as varied as they come with different roads available to satisfy anyone's tastes. Students have the choice of travelling through the mainstream world of mathematics and science or taking the rewarding routes of languages, band, and performing arts to mention a few. The crowning

touch to the achievements of students are the awards given in October each year. Hundreds of people gain merit and distinction for various awards including honours standing, Rutherford Scholarships, and Citizenship awards. Students striving to gain honours standing must work hard all year in order to achieve an average of above 80% in the top twenty-five credits. Once students have completed their tour of duty within the public education system, they can leave our school with an armful of awards to take on to a Post-Secondary institution.

It seems ironic that the one thing that we really love to hate is the one thing that we attempt to achieve: academic excellence, but excellence can be found in many subject areas.

The school band will be taking a trip later on this year, and they will come back successful no doubt. As well, the Drama department has produced many wonderful plays providing many nights of entertainment. Audiences have thus far seen several wonderful productions such as *Hay Fever*, the Snowflake Festival, and the Dinner Theatre. Students will carry on the tradition of the pursuit of excellence in the future.

Right: Cooking up delicacies is only one of the perks involved with food studies.

# Hamming It Up

Drama at LaZerte is an active program. Besides the three levels of classroom instruction, seven programs are presented before the audiences. Students have many opportunities to become involved in the performance aspect of Drama in the school.

Acting is, of course, the most obvious portion of Drama. Actors work in the fall production (*Hay Fever* this past fall), the mystery dinner theatre in January, the one-act plays in April, the fairytale shows for the elementary school age audience, and the Drama 30 production in May. Acting challenges many students throughout the year. A few students get involved in the

lighting and sound aspects of theatre. These greatly enhance the quality of the productions.

Directing a one-act play is also a challenge for student directors. They learn the many aspects involved in doing a production. The one-act evening in April gives several students a chance in this field.

Classroom activities develop self-confidence as well as refined theatre sensibilities. Perfecting acting technique is a life-long task and we begin and continue it here.

M.E. LaZerte Drama is a dynamic program. The challenges are met and the program seems to be a successful one.

# Performing Arts

The Performing Arts program at M.E. LaZerte school is a combination of drama, dance, and music. Musical theatre is the focus for this program where every student of the class is an actor, singer, dancer, and stage hand when required.

This year they have taken part in the Snowflake festival, presented a musical play, and presented Showcase '94. The play this spring was "The Challenge School", character sketches and basic play outline written by Mr. Nattress. It portrayed a big high school for troubled students.

Showcase '94 is a chance for all members of the class to get involved with skits, songs, or humorous presentations in many forms. It shows how

much talent we really have at M.E. LaZerte.

Above: Performing Arts starring Shelley Hlady, Christine Schoep, Kory Udholm, Salma Sutt, Brendan Bone, Lisa Hoskins, Keith Weller, Andrea Culligan, and Aaren Schroeder.

Above: Kyla Johnson sports a cigarette and a tattoo as she shows us her tough side for performing arts.

# Concert Band

The M.E.L. concert band is the main performing group of the music department. This collection of musicians with various levels of skills took time out of their busy schedules to play and rehearse to create beautiful music. Under the guidance of the new band conductor, Mr. Jones, the concert band went on to new heights. The year had a rocky

start with the appearance of a music folder thief at the Roast Beef Concert, but it improved as the year progressed. The band put in some great performances and showed a lot of people what they could do. With a total of eight public performances, whatever stage fright that had existed should now be somewhat diminished.

Top right: Michael Matras and Wyan Shankurak draw the music expertly from their saxophones during practice.

Right: Excellent music often results from hard work during rehearsals, but during preparation, Melanie Langille can afford to be distracted.

# Jazz Band

There's nothing like playing something that has current appeal but does not have nonsensical words or beats that go nowhere. That was the kind of quality playing that the Jazz Band performed and boy, did it sound great! The Jazz Band had spent many lunch hours practising, and it paid off with some awesome performances. They received a bronze metal at the Sherwood Park Festival and honors at the Kiwanis Festival. The music they played included swing, rock, and blues as well as jazz.

# Band Trip

It began at 10:03 p.m. on Thursday, May 5 as 33 band students, 3 parent chaperones and Mr. Jones boarded a silver Golden Arrow Video Bus in front of M.E. LaZerte. They drove to Blue River where they adopted a new bus driver. They named him Bob as he was reluctant to reveal his true identity to them. They continued on to Vancouver (watching the Pink Panther and Dances With Wolves) where they finally arrived on Friday at their posh accomodation, the Richmond Travelodge. After residing on a bus for over 12 hours, everyone was anxious for sleep, yet being the ultra-dedicated band students they were, they

had a rehearsal in the hotel's conference room instead. On Saturday, after sleeping in, they got back on the bus in their matching sweaters and proceeded to the Heritage Music Festival where they won first place (and a huge trophy) in their category. Yay!! On Sunday, they toured Vancouver, walked across the Capilano suspension bridge, visited Stanley Park and a botanical garden, went to a dam and shopped in downtown Vancouver. It was a very relaxing trip; the weather was beautiful and best of all, Bob revealed his true identity upon their arrival at M.E. LaZerte (His name was Marcel).

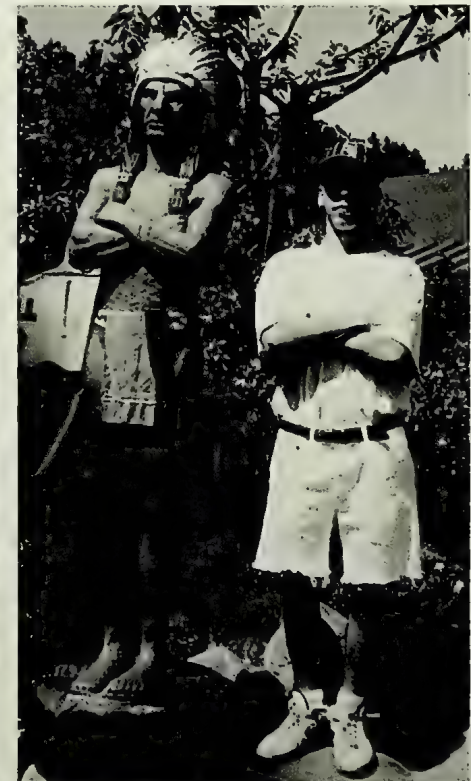

**Top right:** Everyone says their last goodbye before the Capilano Suspension Bridge snapped in two. NOT!

**Above:** It is not a lot of fun travelling by bus for 12 hours.

**Far right:** Richard Steppke does his best imitation of the wooden Indian Statue. Who's who?

**Right:** Eureka! Paula Bennett has found a new hobby!

Top right: We caught Raymond Sung sleeping. (It's deja vu all over again!)

# La Tour de l'Europe

Our tour of Europe was both educational and fun. Our first stop was London, England. A beautiful old city with numerous monuments such as Big Ben, the Tower of London, and Buckingham palace, the two day stay in London was a great insight to the Royal family and its history.

Our next stop was Paris, France. This romantic city was an intoxicating experience as we made our way through places such as the Louvre, the Arc de Triomphe, and the Eiffel Tower. The aged architecture was a refreshing view of this city's rich past.

The third stop on our journey was Nice. This city was a tropical paradise with breathtaking scenery and hot breezy days in contrast with our last stop, Switzerland. A final chance for souvenirs and the European lifestyle was lived out in this snowy, mountainous country. It was a skier's paradise. My only regret about this trip is the lack of time we had to explore this history bound continent and its peoples.

# Learner's Permit

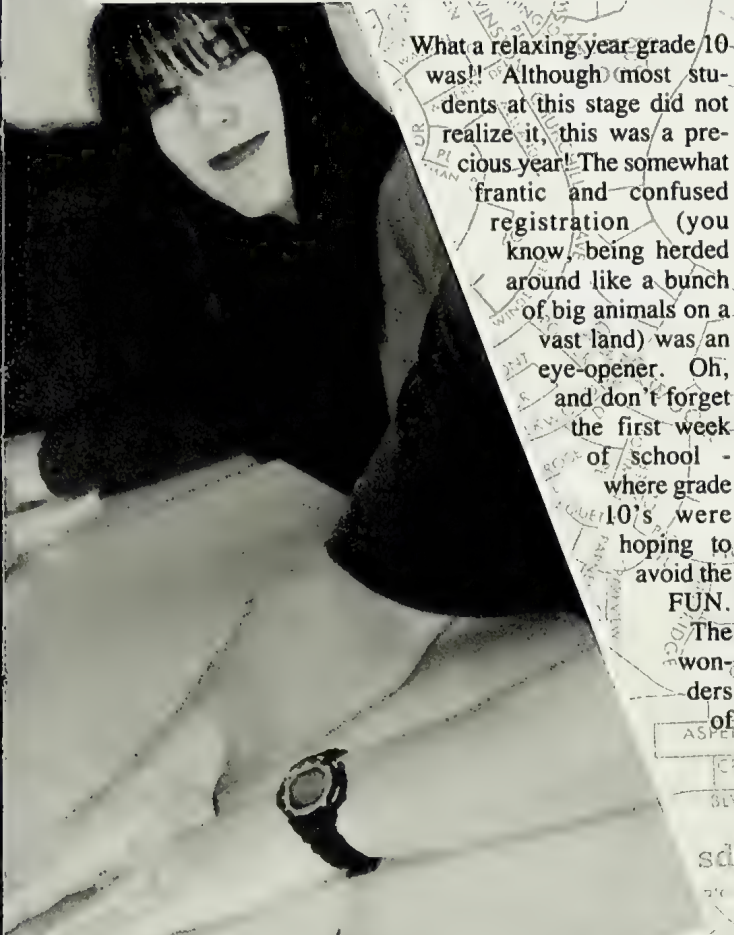

What a relaxing year grade 10 was!! Although most students at this stage did not realize it, this was a precious year! The somewhat frantic and confused registration (you know, being herded around like a bunch of big animals on a vast land) was an eye-opener. Oh, and don't forget the first week of school - where grade 10's were hoping to avoid the FUN.

the bookstore (slush, pop, JUNK FOOD!) and the seemingly endless line up of people at the cafeteria (not if you know the trick to it) are some of the JOYOUS experiences too!

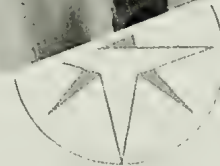

What about the first encounter with the Hallowe'en activities? There must be a reason for a bunch of grade 11's and 12's holding mean looking knives (aside from the purpose of carving the pumpkins), right? The costume parade must have given a lasting impression of M.E.L.'s fashion trends. The first chair lift must have been the quite the experience as well. It must have been the QUIET, orderly way each desk was moved.

Aaah, grade 10. Life on the right hand side of a three lane

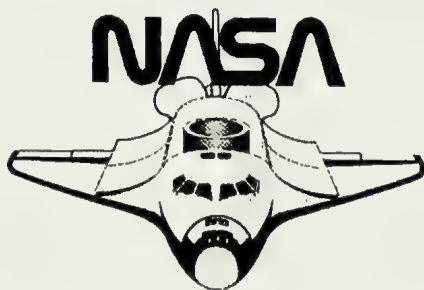

highway, right? Never fear, grade 11 is coming your way. WARNING: Contrary to popular believe, the stress level of each level of education in high school is equivalent to that analogy of driving on the highway. Regardless of the warning, you still can't wait to get out of grade 10, right?

What would have happened if our wide variety of clubs suddenly disappeared? What to do? Alleviate the disappointment and begin to attack our nightly homework with endless enthusiasm? Yeah, right. How about performing meditation and chant at the same time? Don't think so, huh? By the way, not to worry. It was just a historical question. We have an abundance of clubs offering everything from at-

tending the opening night of plays at a new low cost to having the freedom to pollute the airwaves, and what about the Step Team who gave us a stompin' good time during the Pep Rally? Then there are the clubs that worked to inform us of current issues with the help of conferences such as the Ambassador Club or the Newspaper club, and of course the ultimate club that pulled students together: the Yearbook club. All the clubs from A to Z, despite their differences, have one thing in common: our school spirit. Be it the Student Council who helped get us out of our classes or the Grad Council's hard work, the Radio Club who brought out the singers in ourselves, belting out those tunes albeit a

little off key), or the Ambassador Club (being an interactive group in the school and within the community), the M.E.L. spirit is always pre-sent.

Right: Amy Lo and Laura Va Hoek show their prides for music.

# Skills Club

The new and virtually unknown M.E.L. Skills Club allows students to pursue their interests in the technical and business world. These courses included Beauty Culture, Automotives, Building Construction, Visual Communications, Drafting, and others. The Skills Club encourages students to develop communication skills, team leadership, active participation, school spirit and support of industry. Throughout the year, the club has been successful in promoting excellence in Career and

Technology Studies. This was shown when the club won the Provincial Competition at NAIT, and the national competition in Hamilton, Ontario. This club also brought home medals in cosmetology, carpentry, cabinet making, business computer application, and fashion studies. The club is useful in benefitting students and the industrial community by enhancing self-esteem, and improving the knowledge and skills of students and preparing them to enter the work force.

# Science Olympics

M.E. LaZerte was well represented at the annual Edmonton Junior-Senior High Science Olympics. Our school provided three teams: The Quick Quarks composed of Kim Malonik, Biju Thomas, Jeff Tyson and Bobby Gautam placed sixth in a field of twenty-one teams in the Spin Your Wheels event. The Energetic Electrons composed of Kam Deng, Chanchoura Bouphasiri, Raymond Au and Jeanne Pham placed fourth in the same event. The team, the Fusion Four, composed of Raymond Sung, Peter Lam, Harnaik Dhaliwal, Tommy Ao and alternate Mike Bakos, brought home the medals. They won a gold medal in the spinning wheels event and a silver medal in the straw bridge event. Their total aggregate score placed them second overall. Congratulations on a job well done to all students and to Jim Bererton, the staff advisor.

# Step Team

This last October, M.E. LaZerte's newest team was created. Step is a combination of dance and military styles that tells a story of its own. At first, this form of dance was taken with great speculation, but after the response we received from our first performance at the pep rally it is evident that stepping is here to stay. Aside from performing at basketball tournaments, school, functions, and other schools, the Step Team had the honor of performing at City Hall as the first act of the opening ceremonies for Black History Month. This gave us a chance to display our work with great pride and recognition. The commands from Meaghan, the "ruff" styles by Michelle, the sweet voices of Diane and Veda, right down to the attitude given by Lenore all mold and help to create the unique style that we can call our own. It is the enormous dedication of everyone that has made this team so successful and allows us to continue to grow. However, it is the leadership and strength of Michelle Morgan and Meaghan Ellis that have gotten the Step Team to where it is today. We would like to thank Ms. Smith, Mrs Walker, and Ms. Saley for their help and support.

# Radio Club

The Radio Club provides entertainment for the student body every lunch hour with music ranging from country to rhythm and blues to heavy metal. The majority of the music heard on the airwaves is provided either by the members themselves or by the money raised from selling Student Union Ticket Packs. Over twelve students have controlled the airwaves of the hallways throughout the year.

Merci buckets to all Radio Club members for doing such an awesome job of keeping everyone entertained and awake during the lunch hour!

# Catch The Wave . . .

This year's student council was made up of over 50 students who dedicated their time and efforts to help make our school a better and fun place to be. Our aim was to raise school spirit and create a positive, fun, and safe environment for learning. There was a variety of activities that we organized to promote this idea like the Pep Rallies, motivational speakers, Lyp Sync, PCL Christmas Party, intramurals, and lunch time activities. With such a large group, we had to be a little more organized, but many new friendships have formed and we all have good memories which I'm sure we'll all remember.

# Grad Council

The 1993-94 Grad Council started the year successfully with a poinsettia fundraising event. More than 300 colourful poinsettias were sold, and we raised over \$1000 in the quest to create an affordable graduation.

Graduation this year had a bit of country to it as our theme song was "The River", by Garth Brooks. This then led to the theme of "A River of Memories and Dreams".

Between February 28 and March 4, over 400 grade twelve students came to school all dressed up with "untouchable hair". March 17 was certainly a day to remember. The annual Grad Fashion Show was held on the day of the Open

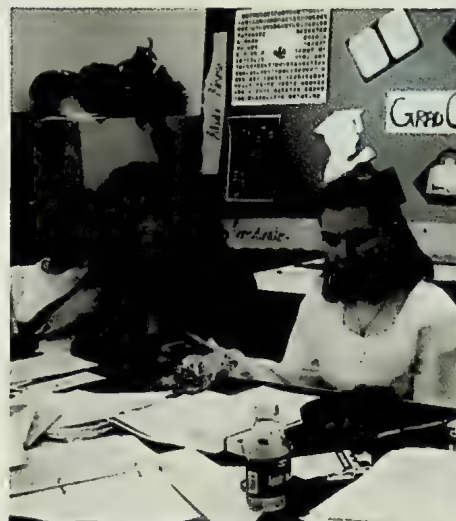

House. The fashions included day wear as well as formal wear. People who attended this event were pleased and left full of ideas on what to wear on May 20.

Traditionally Commencement had been two days before the Grad Banquet, but due to unforeseen circumstances, the Grad Banquet was moved from Friday, May 13 to May 20, but commencement was still held on May 11. (The superstitious among us welcomed the move.)

This year's Grad Council has created a very memorable and affordable occasion for the graduation class of '94.

# Ambassador Club

The Ambassador Club was made up of a combination of students who were interested in creating a caring and supportive atmosphere in our school. This enthusiastic support group dedicated their time to make students more aware of problems that develop during the difficult years of being a teenager. At the beginning of the year, the group went to the Strathcona Wilderness Centre to boost confidence and to learn how to communicate with others. They welcomed new students, prepared self-esteem projects, and even participated in storytelling with elementary school children. They sold red ribbons to promote AIDS Awareness Day and invited a guest speaker to provide more information about AIDS. These remarkable students sacrificed their time to tutor confused students in any subject. Their main objective was to make every experience memorable and fun for everybody at M.E. LaZerte.

# Newspaper Club

Fire Envelops M.E.! No, it isn't true, but this headline would probably attract everyone's attention, especially the students' which is one of the main goals of a newspaper. Mrs Hughes, Harnaik Dhaliwal, and Lisa Hoskins were the founders of M.E. LaZerte's first newspaper, the Voyager Voice. The Voyager Voice may not have such dramatic headlines, but the staff of the newspaper club have captured interest with such ideas as the French Corner, the M.E.L. Shrink, and the writing contest.

The publishing of the first edition of the newspaper was the most exciting event for the newspaper staff. It was no doubt also a great relief for Wes Tropak, Heather Harris, and Harnaik Dhaliwal, the ones responsible for layout and design, who worked hard and frantically over the weekends to meet the deadlines. They may agree that putting together a newspaper could sometimes be stressful, but what is anything without the struggle?

**Above right:** One at a time please! Connie Wong and Peter Kouremenos argue their point during the newspaper meeting. With them are Heather Harris and Wallis Wong.

**Above:** To put together a newspaper, all you need to do is scribble down some words and slap together some pictures, right? Peter Lam and Mrs Hughes could tell you it involves more work than you would realize.

# First Nighters

How do you fit nine people in one car? This was a skill that the First Nighters learned. First Nighters had grown. Maybe it's due to the post performance reception when the food was served! There were many excellent performances this year. *Cyrano de Bergerac* and *Oliver!* were especially favored by the First Nighters. They had a great time during the performances when they sometimes received souvenirs such as complementary condoms which were thrown to the audience during *Life After Latex*, and afterwards when they met the actors or saw the lighting. The \$144 membership was certainly worth it, even if the ride to the Citadel and back was a little cramped.

## Games Club

The group of people found hunched over some fascinating game in the cafeteria or Mr. Bererton's room every day was the Games Club. They played a variety of games ranging from poker to Dungeons and Dragons. The newest and most popular one was the card game called Magic. Without the responsibilities and stress that often accompanies many clubs, the Games Club was purely for fun.

# Blood, Sweat, and Gears

This message is not about how hard all of the yearbook people have worked this year (we slaved countless hours), and it's not about how close we came to missing deadlines (about ten minutes), nor is it about the number of times we wished we could snap our fingers and the book would be done (around once a day). In fact, I don't even know what this Editor's Message should be about because the yearbook advisors (are you listening Mrs. Watt and Mrs. Fitzmaurice?) are forcing me to write one. Well here goes nothing. First of all, I would like to personally thank all of the yearbook staff for all the hard work they put into this book - thanks you guys; you are the best! I would especially like to thank my assistant editor, Kam Deng, for all the long hard hours of work that she put in - I wouldn't have met the deadlines without her. Because I know you are so interested in all of these hard-working individuals, they have been immortalized for you on the next page.

those studying. Thanks and congratulations to all of the clubs and teams that made this year bearable.

Now for you grade tens out there - quit hiding, I know you're out there; there's only around eight hundred of you. You can rest easy in knowing that over the summer this thing called a growth spurt happens and that when you come back as a grade eleven you will no longer fit in your locker. You can also look forward to taking CALM, the three credit course that everybody loves to make fun of (and sleep in). But what is more important is that when you come back as a grade eleven you, too, can join the ranks of people saying, "Wow, those grade tens keep getting shorter each year."

For you grade elevens, yes by the time you read this you will be in grade twelve (and done CALM - yeah!) and can look forward to nothing but clear sailing in grade twelve. Wrong! There is this one itty bitty problem to your dream called Diploma Exams. Reflecting back on grade eleven for a moment, you no longer have to contend with that annoying position in hierarchy of

of high school - being neither first nor last, but stuck in the very middle. But some advantages did come with that position: you finally knew your way around M.E. and figured out how to get a cheese bun between morning classes (get a friend in line to buy one). Ahh yes, and now for my fellow grads. Right now you are probably in some university class reading this article wishing that the only thing you had to worry about was a cheese bun. Think back, way back to grade twelve and that place called M.E. LaZerte. Remember Dips (I should hope not - some things we try not to remember). But, of course the real benefits of being in grade twelve come from being able to use all sorts of excuses to get out of class just because you are a grad such as "I have to go for my manicure," or "I've got to go get my tuxedo." And while on the topic of benefits, who can forget those horrid grad photos with the hat? High school helped us to mature; university will help us to discover Mr. Bererton's secret: caffeine. Last, but certainly not least, are the teachers and staff at

LaZerte. Thank you for all you've done. But now, a few random thoughts about the teachers at LaZerte. Mr. Dunwoody - there are places that can help you with your hair problem before you become another Mr. Elniski. Miss Saley - sorry, but the only thing that can help you are really huge platform shoes. Mr. Myck and Mr. Sumyck - your choices of attire (ie. turkey and leprechaun) sometimes leave something to be desired. All kidding aside, the debt we owe you is impossible to repay.

That's all folks! In closing, I would like to leave you with these words of wisdom:

"You can't wait for inspiration. You have to go after it with a club."

- Jack London

Or, my personal favourite:

"Don't work too hard!"

- Wes Tropak

May you succeed in all your endeavours.

Wes Tropak

**STRESS! DEADLINES! PANIC!** These three words are the very essence of yearbook. Mind you, that says nothing for the occasional pizza party, scissors in the wall, and chases though the halls with sharp objects in hand. As you can tell, the stress sometimes got to us yearbookers. A few of us had the pleasure, or so we thought, of going to Olds in August for a yearbook camp. Never have so many people slept through so many lectures in so little time. The food at the yearbook camp gave us an even greater appreciation for the cafe food back home. How bad was it, you ask. It was so bad that Andy Norell actually ate his meal ticket. Our diet consisted mainly of chocolate milk and eucalyptus candy. Entertainment, was another thing. Soccer was played with, you guessed it, eucalyptus candy, and your very own yearbook club members; Wes, Dave, and Andy did a five minute version of *Rebel Without a Cause*.

This year's yearbook club was a unique blend. There were Dave and Andy our resident

comedians and hairstylists (see photo at left). There was Susan who could scare off the devil himself with her glare, and of course our photographers extraordinaire Al Lim and Nancy Lan, not to mention our assistant editor Kam Deng, who by the way hated the sound of books being slammed shut. One cannot forget Elana who was the only one among us who was not rude, loud, and obnoxious. Then there's the inseparable pair of Fiona and Victoria who would laugh at anything, and of course Bobby our resident mouthpiece. And who could forget Rob who gave us an endless supply of music. Mrs. Watt and Mrs. Fitzmaurice, our advisors, made sure we were actually working instead of running through the halls. Finally there's the editor, the guy with the "envious" job of setting deadlines.

Yearbook was a lot of work, while at the same time was a lot of fun. Some how, we managed to put together this 152 page book. Well, until next time, Ciao, Sayonara, Au revoir, and Good bye!!!

# Maximum Overdrive

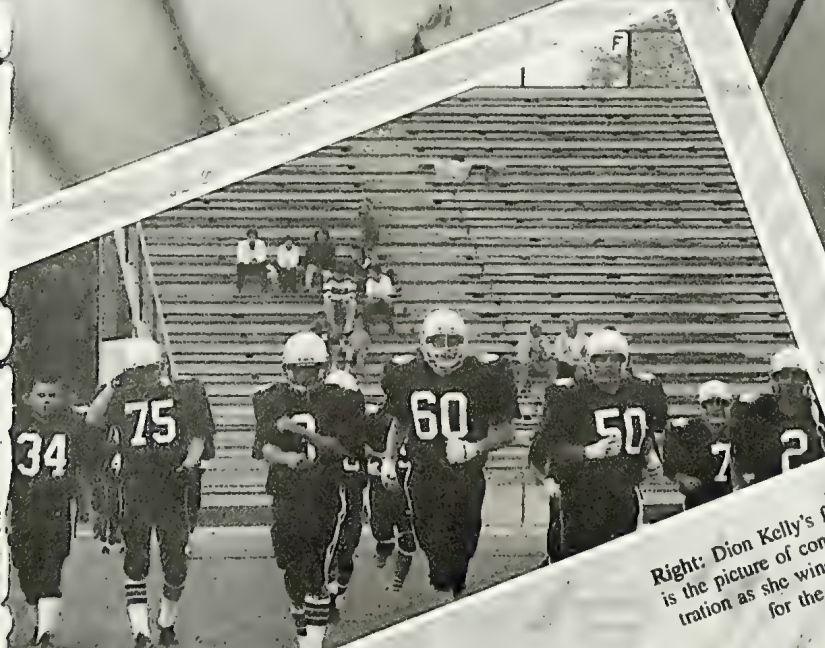

Not long after registration, students from M.E. LaZerte High School have a number of fall sports competing for their attention. Among those sports are volleyball, whose senior boys and girls teams made it to the city championships; the weightlifting team, which hosted a contingency of weightlifters from Japan; the football team, from which Scott Kaehn was selected by the Edmonton Journal as one of the city

all star senior football players. This award was presented at a banquet at the Westin and was attended by many city dignitaries. The rest of the fall teams include cross country and the swim team, which have done exceedingly well. These athletes, with the assistance and dedication of their coaches, juggled homework, practice, and possibly a job and should be commended for such daring feats of cat-like agility and lightning reflexes. The dedication and commitment that has been put into the teams and team spirit by the coaches and students command and deserve respect.

The teams of M.E.L. know that championships are not the only goal. More important is the individual's and the team's performance, dedication, and

sportsmanship. The phrase "It's not winning that counts, but how you play the game" is an old cliché, but nonetheless, it still rings true. Now, remember, let's have fun out there.

# Boys' Volleyball

No other teams exemplified M.E. LaZerte school spirit the way our volleyball teams did! They set, spiked and volleyed their way to the top! The 1993 M.E.L. volleyball season was incomparable to any! The Junior Girls went on to the premier division semifinal and finished 6th overall in Edmonton.

The Junior Boys experienced a good year as well. They learned to appreciate the value of hard work. Meanwhile, both the Senior Boys and Senior Girls flashed their to the conference final and both finished in second place.

# Taking a Plunge

The 1993-94 swim season has been a very productive season. The effort, enthusiasm, and the supreme sportsmanship of all members has been outstanding. Due to the instruction of the captain, Kathy Dytiuk, and the coaches, there was a great improvement in the team by the end of the season.

# Making It On Foot

The cross country season began September 9, 1993 with a rookie meet at Ross Sheppard High School and wrapped up on October 16 at the Provincials held in Athabasca. Although the team was small, the results were indicative of a strong effort by the students participating. Matthew Pierce had an exceptional season, finishing first in the All Events meet, second in the Zone final, and fifth in the Provincials for Intermediate Girls, ending the season with success. This year was exciting and the effort put forth by all of the members was extremely impressive. Congratulations to all of those who qualified for Provincials and thank you for your commitment.

# Weightlifting

LaZerte's Olympic Weightlifting club has accomplished many goals this year. This is proven by the our track record of several first, second, and third place finishes in competitions this year as well as a gold medal in the provincials. When they aren't breaking out a sweat in competitions, they are breaking out a sweat in training. Having a well equipped training facility, partly due to the partnership with the Dynamo Weightlifting club, allowed us to have a full team of twenty-five Ja-

panese lifters from Hokkaido Japan visit and train with us. We have also been host to many clinics and competitions. The team's performance in comeptitions is not the only thing that is on the up-swing - so is their performance in the hospital. Lifters can look forward to Mr. Fergusson hitting himself with the weightlifting bar. Last year he required over seven stitches, this year he needed over eleven...is next year going to be over fifteen?

# Curling

This year M.E. LaZerte had 3 teams in the Greater Edmonton Senior High School Curling League. Two were all boys' teams and the other was a mixed team. One of the boys' teams participated in the city play downs. For the mixed team the biggest problem was getting enough players. Finally John, a beginner, but a natural, made it a team of three. They may not have won them all, but they did make a lot of friends.

Behind them were coaches Mr. Renfree and Mr. Pacholik. Mr. Renfree wants to thank all of the curlers for their commitment, and he feels that "they were excel-

lent ambassadors for the school, displaying good sportsmanship both on and off of the ice." Mr. Pacholik never let them get out of a game, even in the worst weather. To him, the mixed team would like to say: "Thanks for the popcorn."

# Middle of the Road

One down, two to go! This must be your lucky year! You are not afraid of any seven foot monster wearing a helmet and a jersey, instead we are the seven foot monsters wearing the jerseys. You are able to find your way around this huge school. You manage to keep yourselves outside of the locker instead of inside it.

No problemo!

The only year when we get to take C.A.-L.M. Why?

So that nobody fumbles when practising

safe sex because the teachers have already taught you how to put it on a banana!

Chewing gum without being noticed? Easy job! Grade 11's do things that require harder skills. Like what? With more than a year of practicing, you're now able to sneak food into the classroom without the teacher noticing. Some of us are professionals at sneaking out in the middle of the class and coming back for the attendance with two minutes left.

We're quite a special group this year. We're called the "experimental group" because of those new science courses! Bummer! Everyone should remember those killer biology unit exams. They're enough to blow you out of the whole universe! But hang on tight until you at least try the diploma ex-

ams next year. Maybe we'll change our minds about the new science courses after all. Grade 11 isn't all that bad (at least when compared to grade 12)!

## Why do teachers drink so much coffee, and what's in it?

Coffee is actually composed of propane, lemon juice, and 6 pounds of sugar to sweeten it up. Would you drink it if you knew what was in it? Besides, the teachers drink it for the taste.

- Jody Annear

There's a drug in it that changes them into vicious monsters that kill teens with homework.

## Why are shrimp grey when raw but pink when cooked?

You'd be pink if someone cooked you!  
- Laura Hatcher

They don't tan very well.  
- Blaine Prangnell

They get in touch with their feminine side.  
- Allison Fallowfield

It's a protective device. How many people like eating small grey creatures with long sharp tails, and beady little black eyes, who, for all they know could have been floating in an oil slick.  
- Sajid Khan

They are blushing from the embarrassment of being seen naked by all the chefs.

## Is Elvis *really* dead or is it some CIA cover up?

He's dead. Live with it.  
- Andy Norell

I think Elvis is having an affair with my mom.  
- Jason Cowles

Yes it is a CIA cover up to hide the fact that Elvis is masquerading as the K-Mart announcer.

- Jody Annear

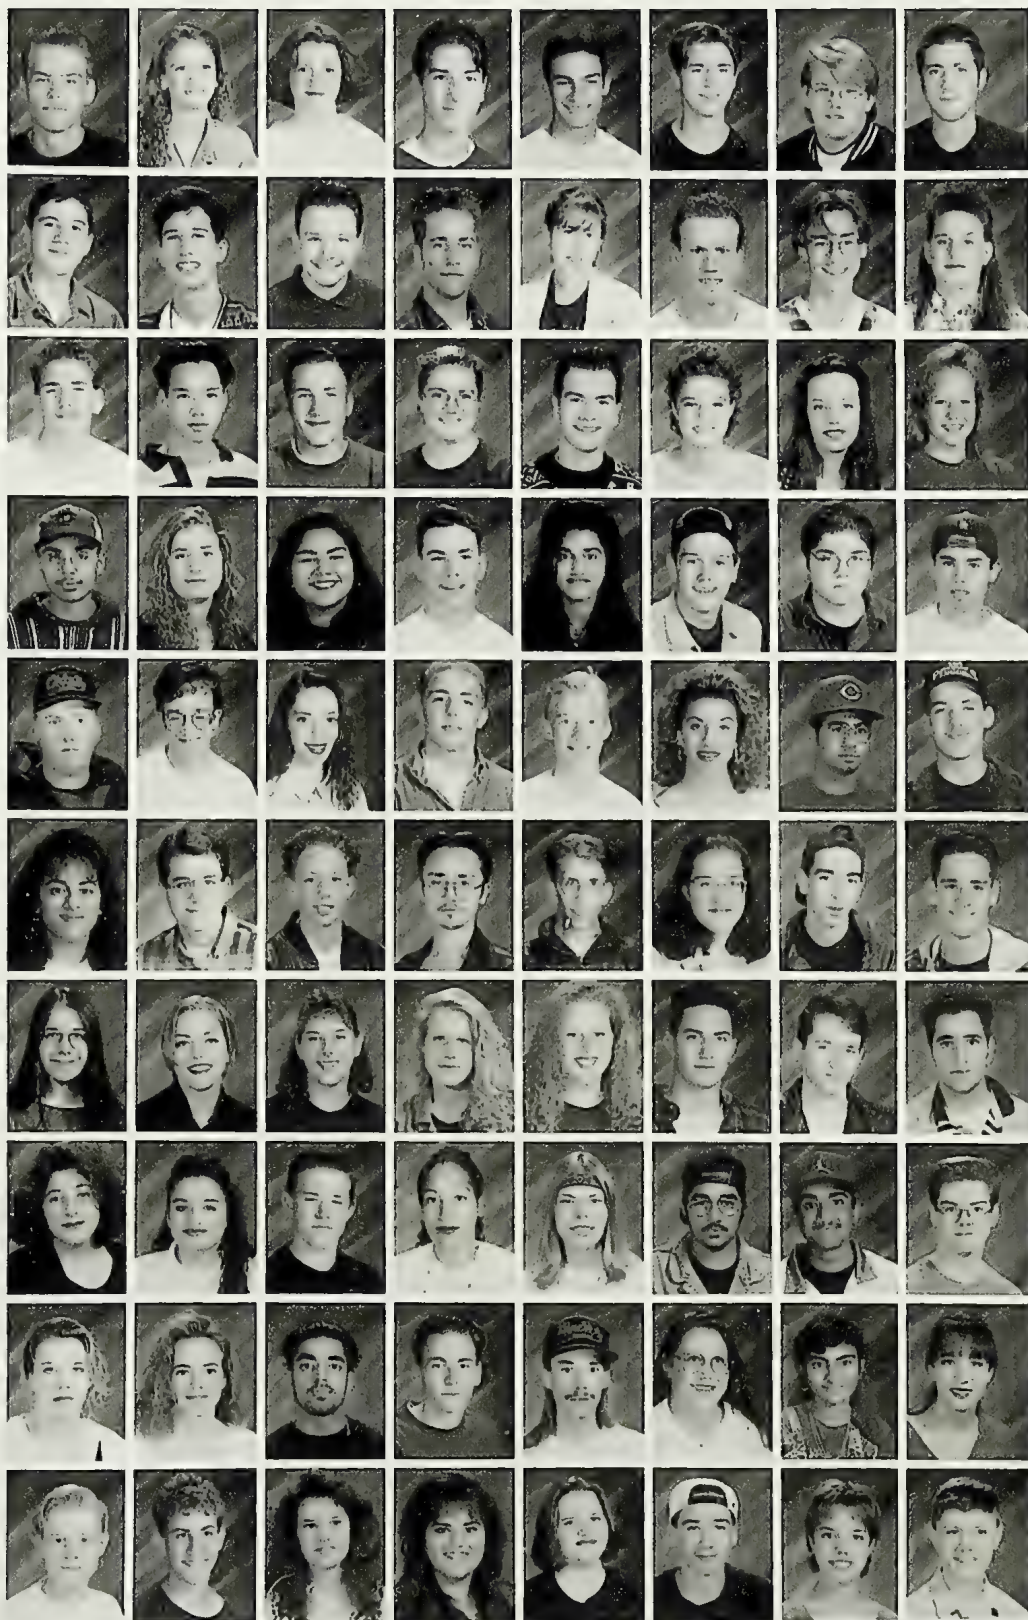

Yes, Elvis is dead and it was a CIA cover up along with the Mafia, KGB, Cuban terrorists, and Scotland Yard.

## What's really in hot dogs?

Aside from rusty nails, razor blades, and the old piece of gum found underneath a desk, hot dogs are mainly made of moth balls, dust balls and a moldy old pizza crust you lost in the couch a couple of months ago.

# The Highway Patrol

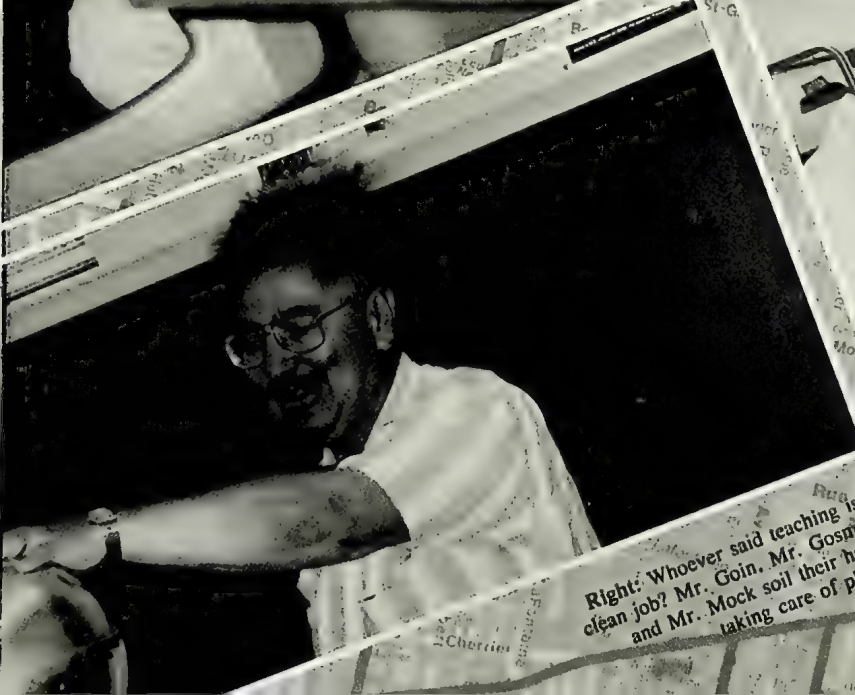

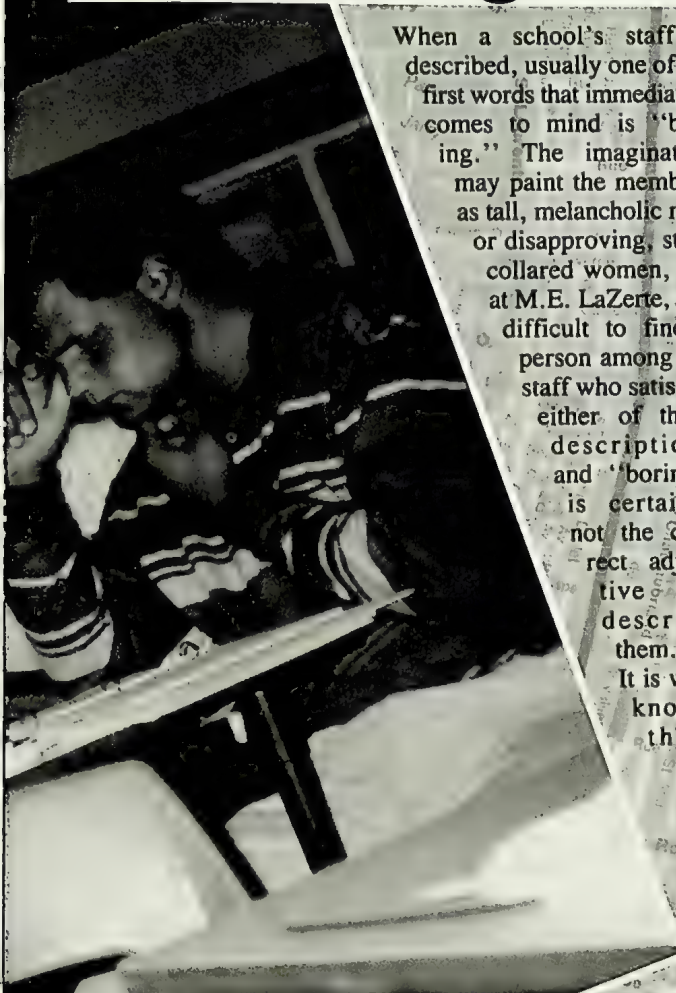

When a school's staff is described, usually one of the first words that immediately comes to mind is "boring." The imagination may paint the members as tall, melancholic men or disapproving, stiff-collared women, but at M.E. LaZerte, it is difficult to find a person among the staff who satisfies either of these descriptions and "boring" is certainly not the correct adjective to describe them.

It is well known that

most English teachers are quite eccentric, but there are also some quirky and interesting teachers in other departments. Mr. Dunwoody gives long, thorough notes, and his eyes sometimes light up when he explains a concept or giving examples. Mr. Auton walks as gracefully as a model, and he can be recognized by the methodical "tap, tap" of his footsteps even before he appears. There is the hard working Mr. Bererton who livens his classes with amusing anecdotes and his funny laugh. Mr. Sumyk, the cheerful, mischievous math teacher, can easily blend in with the student body because he looks like a student himself. If you are paranoid about what is in your food, consult Mrs. Fitzmaurice and her book of

paranoia, and Mrs. Pirnak's unfaltering bright smile and lively chatter are really great encouragement for those students who need some help in school. There are, of course, many other great teachers, and they are probably relieved that they are not in this list.

This year there are a large number of new staff members including Mrs. Harrison, Mr. Edey, Ms. Smith, and Mr. Renner who form the new administration. In time, their distinctive traits and eccentricities will also show.

Right: Whoever said teaching is a clean job? Mr. Goin, Mr. Gosman, and Mr. Mock soil their hands taking care of plants.

# Principal's Message

Above: Mrs. Harrison addresses the student body before motivational speaker Greg Atkinson takes over.

Above: Mrs. Harrison continues to bite away at the mound of paper work that fills her job.

On behalf of the administration and staff, I am honoured to convey greetings to you. I would like to congratulate the yearbook staff, Deanna Fitzmaurice and Jean Watt for an outstanding edition of the "Portage". This book will provide all of us with pleasant memories and a special link with the events of the 1993-94 school year at M.E. LaZerte. Your theme, "Map of Yesterday", is an appropriate metaphor of time with us. Especially do I wish to bring a message to the members of the graduating class - I do not intend to ply you with advice as you leave our school; rather, I would speak of the satisfaction that has been ours in working with you. It is truly a deeply rewarding feeling for us as your teachers and counsellors, to know that, in some small way, we have been part of your yesterday; to have been able to take part in the development of your lives and to help you prepare for the important role which will be yours to play in our expanding Canadian citizenship

in a hoped-for democratic world of tomorrow.

It is only natural that we should look, with a degree of wholesome pride, upon our graduates each year, as the journey through the halls of M.E. LaZerte, through which they entered so inquiringly but a brief student generation before; because we know full well that in the process of conveying information, we too have been conveyed to those who received. It is significant, of course, that we also have received through the association of personalities - a rich reward in education, and this we acknowledge with appreciation. And so, as you proceed to tomorrow and as we become yesterday, we will welcome those who follow in your path, there is a feeling of ever-expanding "community". I trust this feeling is experienced by all of us, as we use what we gained through intellectual development and spiritual discernment in helping to make life tomorrow richer in skill, courage, wisdom, and happiness.

And as you reflect on your "Maps of Yesterday", I encourage you to recall your travels through English classes and your encounters with Tennyson - "I am a part of all that I have met...". I challenge all of us to select the best in what we meet, so that improvement in mind and heart may continue. Success to each of you.

E.M. Harrison

# A Fond

Mr. Gerry Smith is retiring this year from a successful teaching career. He was born in Liverpool and came to Canada with his family in 1953.

He went to Teacher's College in Saskatoon and graduated in 1963 after his instructional career at the Canadian Vocational Board in Saskatchewan.

In 1964 he began his first public school teaching job as a Pipe Trader Teacher in Stettler and joined Edmonton Public Schools in 1967. He worked at Victoria Composite High School until 1967 and then he went to the U of A for his Masters Degree. Afterward he taught at Harry Ainlay and then went into his own private plumbing supply business from 1979 to 1981. Then, it was return to teaching at Vic, Riverbend & Don Knott until he came to M.E. LaZerte in 1990. At LaZerte he has contributed as a teacher, soccer coach, and worked with the MEL - PCL committee, Awards Board and other committees. He is also a keen community supporter with his dedicated involvement with the Shrine Circus in Edmonton.

It is usual on the eve of a friend's retirement to utter the usual "we'll miss you...good luck...a job well done ... the profession lost a good one - etc." Certainly these are all true in somewhat trite expressions of the high regard we have for Mr. Smith, especially the bit about "missing you" and the "profession being poorer". They are, however, inadequate, for they don't convey the true meaning of what Mr. Smith's retirement will mean to those of us who know him best. You see, he is not only a teacher who cared deeply and passionately about those with whom he taught. Time and again, when the going got tough, Mr. Smith's sense of humor, intelligence and sensitivity would see us through. We'll miss you Mr. Smith, and, yes, it is true: without you we're a little poorer.

Take care, old friend and remember *carpe diem*...

Mr. Pearson has contributed to the education of students for the past twenty-seven years at three different schools...Old Scona, W.P. Wagner and most recently at M.E. LaZerte. Although Mr. Pearson only spent three years at M.E. LaZerte, the administration and staff are particularly grateful for his initiation and coordination of the advanced placement program and "computerizing" so many teachers and support staff. His love and knowledge of computers is recognized by all those that have worked with him...the spontaneous willingness to share his computer knowledge is an example of this man's character.

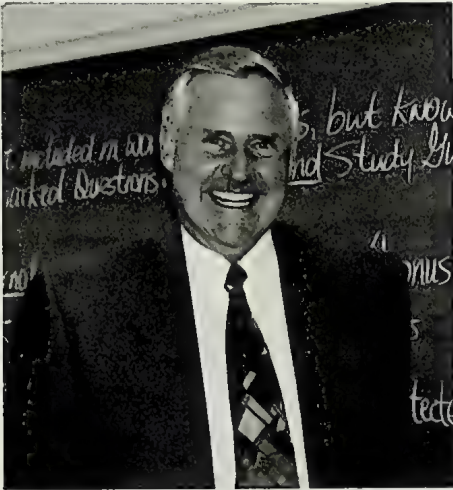

Mr. Pearson's contributions have clearly extended beyond the three schools he has worked at. He developed programs and participated on numerous Edmonton Public School district committees which spanned from the accommodation and programming of special needs students to the academically gifted. Mr. Pearson's understanding of students who have complex needs has provided him the insight and opportunity to make significant contributions in developing curriculum to meet those needs. Mr. Pearson will be remembered at M.E. LaZerte as a dedicated professional counsellor. His sympathetic ear, sense of humour and spontaneous willingness to assist will be missed by staff and students.

Mrs. Johanna Lubberts has been a teacher at Victoria and M.E. LaZerte schools. She has been at LaZerte for the past two years. Mrs Lubberts spent many years teaching Business Education courses to students Victoria Composite. She takes pride in all the work she did developing an exciting Law 30 course. She has often taught the "left over courses"- Accounting, CALM, Social Studies 13 and Psychology. Mrs Lubberts is fluent in English, Dutch, German and French. For the last twelve years she has worked mainly with English as A Second Language Students. She truly understands how languages differ in their grammatical construction. She speaks like a proud parent of their successes. She often meets former students who will stop and talk to her about the classes they had together, of their successes. Her ESL students often referred to her as "Mom". Mrs Lubberts has had a variety of interesting experiences in her life. She's been in the navy, worked in Indonesia for a large company as personnel manager, operated a small accounting firm from her own home while raising four children of her own, attended University in her forties, became a teacher and took a very active vocal role in the Alberta Teacher Association to name only of few of these experiences. She enjoys formal debate. Mrs Lubberts' humour has been appreciated by many of her peers, her stories about her experiences are so well described you can almost imagine yourself in the situation. Mrs Lubberts came into teaching when she was fifty and has been teaching for twenty one years. Teaching has kept her young and she has no intentions of taking life easy upon retirement from Edmonton Public Schools. She plans to continue working doing interpreting word and travelling.

# Farewell

In September 1969, Ted Robinson was assigned to teach Business Education at a brand new school called M.E. LaZerte. He was given the address and reported for work; however, when he arrived at the address, he could not find the school - it had not yet been built. He had the presence of mind to check at Londonderry Junior High and found that he would be working there until LaZerte was built. He was assigned to teach typing for the first two months. His students could type so fast you could not see their fingers move. This soon changed when the typewriters arrived.

Over the years, Mr. Robinson has taught most of the courses in the Business Education curriculum. Students and staff have noticed that he is the best prepared teacher in the system. He arrives in the wee small hours of the morning and stays late at night. He is frequently seen in the school on weekends. Students can attest to the fact that he keeps copious lesson plans because they have to copy his notes off the board during his classes.

With his quick sense of humour, Mr. Robinson can turn any snippet of conversation into a humorous anecdote. He loves to garden, golf, travel, read, listen to music and watch televised sports (anything except horse racing and figure skating). He has a passion for photography.

Mr. Robinson's past students still visit him and some have become good friends. He will be missed by both the staff and students here at LaZerte where he has been and an institution for the past twenty-four years.

Teaching has consistently added to Mrs. Tandrup's youthfulness and students will never forget her unique wardrobe, some of which she designed and sewed, as well as her collection of unique, large earrings. Besides her flair for fashion and her dramatic presentation, Mrs. Tandrup is a warm, creative teacher who has encouraged many students to feel capable and worthwhile. Her consideration and respect for students is just one reason many students she has met over the past twenty-five years still keep in touch with her. Mrs. Tandrup believes that her students teach her as much as she teaches them. While working in Special Education at various Edmonton public schools and with the PASS program at M.E. LaZerte, she consistently has treated students as individuals while motivating them to be open to all opportunities in life. Her future plans include teaching in Thailand and operating a gallery.

Mrs. Thelva Miller, Accounts Clerk at M.E. LaZerte for several years, retired at the end of 1993. She was born in a small Manitoba town (Whitemouth), where she recalls the story of her grandfather being an early recipient of the new smallpox vaccination by the town's first lady doctor. She and her husband have moved around Canada and finally settled in Edmonton a few years ago. She taught herself accounting when her five children were grown up and took a job with Edmonton Public School Board on August 5, 1977. Before coming to M.E. LaZerte in August of 1988, she taught herself computer accounting. She is fascinated by mystery stories with a macabre touch, and her accounting skills reflected this interest as she tracked down "lost" monies and outstanding accounts. She looked for clues in spread sheets as she searched for the perpetrator of mischief in the books she read. All mysteries were solved. Accounting and computers were satisfying outlets, but they are not her only talents. She crochets, knits and makes cross-stitch pictures in her spare time. Her curiosity and problem-solving never stop. If you look at her life, it has been one of meeting problems head on and striving for a "perfect" solution. Her greatest challenge to solve a problem has come in the past few months since her youngest son has become very ill and in need of heroic medical measures. The first months of her retirement were spent working on this challenge to her planning abilities. Now the transplant is done and our best wishes go to her son for a long and healthy recovery.

Mrs. Miller, we'll miss your many abilities and your warm laugh and enthusiasm for computing when you're happy and wish that your years will be filled with cause for laughter not tears, health not sickness, and time to learn all sorts of new things, to visit us here and to have lunch out!

# The Roadrunners

Some say that changes in the vernal equinox cause the shifting of the seasons from winter to spring, but another explanation of the spring thaw is heat given off from our athletes. As a result of a long and bitterly cold winter, the pent-up enthusiasm at M.E. Lazerte explodes as we race to join as many teams as possible.

Our teams are also recruited very early, with some practising even as

the snow flies.

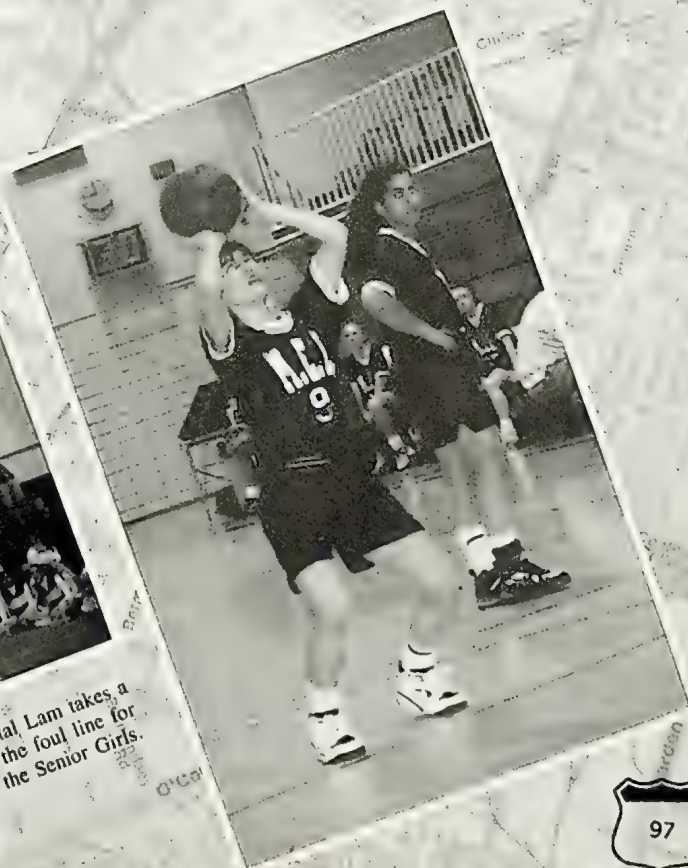

Give me an L, give me an A, give me a Z, give me an E, give me an R, give me a T, give me an E. What do you have? LAZERTE! Yes, they give us their rah-rahs throughout the year and what thanks do the cheerleaders get? Fourth place in the provincial competition and second place in the city competition, that's what. We're very proud of our Pom-Pommers. On the extreme opposite end of the peaceful sports stands rugby, a game played by gentlemen and women with an odd-shaped ball. As it stands, the rugby season has yet to start. Under the watchful eyes of the coaches, the teams will definitely be moulded into the brutal athletes we love to cheer on. The athletes who partici-

pate in rugby are perhaps the largest group of recipients that our annual blood donor clinic tends to.

In the category of more "civilized" sports, our soccer, water polo, and badminton teams will strive for excellence and keep the voyageur spirit alive. Our boys and girls basketball teams have done well in the competitions they have participated in. Congratulations to all!

# Just Dribblin' Along

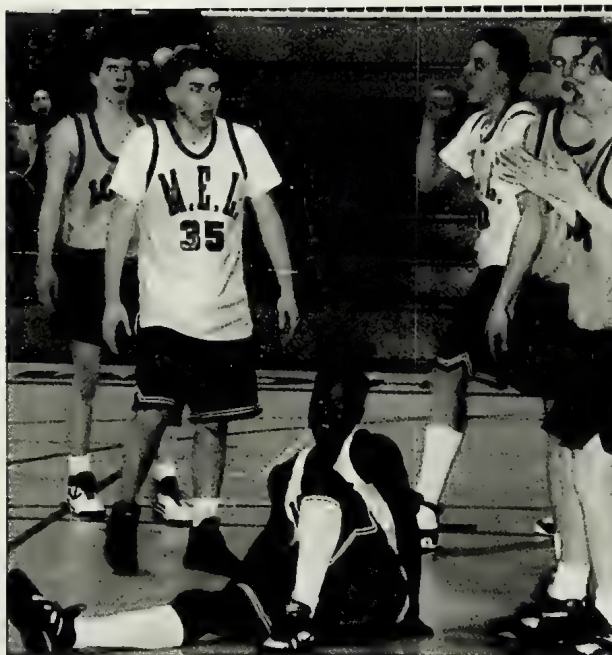

Here is a testament to the M.E. LaZerte Voyageur Spirit: the senior and junior basketball teams. These fine examples of comraderie, sportsmanship, and dedication won the Second Division Championship and came in no less than fourth in the five tournaments this year. Although it may seem as if the players did all the hard work, the coaches also put in many hours of equally hard work to help the M.E. LaZerte basketball teams aspire to new heights of glory (no pun intended). Taking into consideration the hard work that both the players and the coaches put into the teams, and not to mention the fans that supported them, we give you a heart-felt thanks for making the basketball year of 1993-94 a memorable one.

# Girls' and Boys' Soccer

## Boot It!

M.E. LaZerte's soccer teams have had an extremely successful season this year. The Senior Girls' have come a long way since last year. They ultimately defeated all the teams on their way to the gold in the playoffs. Since this year was the girls' last season, they were really glad to finish at the top. The Senior Boys' soccer team had another great season. They played well in the Golden Bear's tournament and made it to the playoffs. The Junior Boys soccer team progressed well this year and developed skills that will help them next year.

# Bouncing Along

On this stop of the tour on the road to success, we present to you the M.E. LaZerte cheerleaders. With eye dazzling, high flying, death defying, gravity defeating exhibitions of cat-like agility and lightning reflexes. Whew! That was a mouthful wasn't it? Aside from all of that, the M.E.L. cheerleaders have done extremely well, sporting a third place at the city championships. Although they make their routines seem easy, the cheerleaders put hours and hours of practice into the perfecting of cheerleading. A special thank-you for making this year's stay at M.E. LaZerte more lively and bearable. Oh, wait, I almost forgot! Another just as special thank-you very much to the M.E.L. cheerleading coach, Ms Hui.

# Badminton Team

The M.E.L. Badminton Team finished their season with a record of six wins and four losses. This placed the team third in the South Division, one win from a playoff position. The team consists of approximately thirty students - many of whom were in grades 10 and 11 - playing matches in boys and girls singles, boys and girls doubles and mixed doubles. While the play within

the division is competitive, and a select group of students are chosen to represent M.E.L. in the Provincial play-downs, a greater emphasis is placed on skill development than competition. This year's team, coached by Mr. Myck and Mr. Sumyk, provided strong competition against every school they played.

# H<sub>2</sub>O Polo

What is it? A game with horses in water!? Not quite. It's a test of a swimmer's endurance that has a volleyball, basketball feel to it although it's a little hard to dribble. There are six players and a goalie in the water at one time. As you go up against your opposing team, you quickly realize it is not a game for the easily hurt. It's tough. The M.E.L. water polo team has

spent much time this season working on mastering the art of the game. The result? Pure magic in the water.

(Front row) Bog Dan, Pam Bowen, Paula Bennett, Angela Reiner, Steve Chiakowsky, Ali Taliani, Blaine Prangnell.

# Boys' Rugby

The M.E. LaZerte boys rugby team started off the season with a big bang. First defeating Eastglen then leaving the Ross Sheppard tournament undefeated and finally losing to Queen Elizabeth in a championship game. They also played the Pirates Rugby Club in an alumni game where we were defeated. Rugby is like no other sport being played today, not football and especially not soccer. A game played by approximately fifteen people broken up into forwards and backs. Either way it looks like a bunch of lunatics chasing around

a deformed football. However, the sport of Rugby is an organized one that takes skill, heart and courage. After you play a season of Rugby it is no longer a game, but an attitude. A special thanks to Rob Engels also Cody Gretzan, our most valuable player, Richard Roenow, and to the coaches Mr. Goin and Bill Pietz for going out of their way to make our team strong and competitive.

# Girls' Rugby

Girls' rugby in the last few years has grown tremendously not only in high school but also internationally. As the sport of rugby grows it will not only match the popularity of soccer, but overtake it as a world sport.

The girls have been faced with many challenges over the year. Even though the girls have not made it to the division championships, they are able to be proud of their accomplishments. Besides, rugby is not only based on competition, but also on fun, and the girls did have fun this year as cousin Luc and

cousin Butch decided to leave the team and go running through the river valley, they returned back to the playing field once they looked back and saw that the team was no longer behind them.

A special thanks to coach Rob Norton, Brea Chouinard and Lisa Podolsky for showing team leadership.

# Passport

Ahh, grade twelve, finally. I consider this year to be the "Never, Never Land" of high school. "I never want to step into another classroom, and I never want to copy down another chalkboard-full of notes again!" Although grade twelve was hectic, even painful, we still managed to make it a very enjoyable experience.

"Remember grad?"

"No, I was too drunk."

(Just joking!) The

grade twelve experience was memorable indeed whether it was your yearbook editor who you would have liked to run over or your math teacher who actually planned out how much more efficiently you could have studied for diplomas. It as essentially you and I, the graduands, who made it all worth the hard work and effort. Thank-you to all of the teachers for giving us that helping hand in getting us where we want to be. It was teachers like Mr. "D. W." Dunwoody, wonky Ms. Fowke, and Mrs. "Blondie" Tewitz who helped to pull us through the grade twelve year with limitless amounts of badgering and cajoling. Thanks to all of the friends we've had, and still have, for supplying the fierce competition to get our marks higher and much more.

Thank you to everybody who helped us out in broadening our horizons. Gook luck in the future and remember: no matter how rocky and barren the road may become, perserverance, a strong and courageous mind, and high spirits will always see you through to success.

Right: Colleen Tyson and Natalie Balanko give us super-model poses at the grad banquet.

Be livin a life in the  
lap of luxury. Hang-  
ing out with Snuff,  
Iron, Chermie, Quan  
and all the boys at  
the wall Words alone  
will not brighten nor  
tarnish the future so  
JUST DO IT!

Lesley Ewoniak  
I'll never forget my  
17 birthday, the Eur-  
ope hotels, snow  
angels, Belgian men  
FRANK! and finally  
climbing the gates of  
Buckingham! I love  
all my friends espe-  
cially Grumpy &  
Happy. Never stop  
"going apples" you  
guys.

Allison Fallowfield  
What can I say? The  
past 3 years have  
been AWESOME!  
Hawaii'92 with Des.  
Europe'93 with 'lil  
Elvis and Wes's BIG  
Secret! But what real-  
ly made it special  
was all of my great  
friends I LOVE YOU  
ALL! "I squish your  
head!"

**Kory Fedorak**  
I'm not sure where I'll go from here, but whatever I do, I hope to be successful and live life to its fullest. Thanks to hockey and my friends for the good times. They won't be forgotten. "Keep your stick on the ice" -Ironhorse

**Ian Fergusson**  
I'll always remember my days on the grid-iron and one day I hope to play tight-end for the New York Giants (big signing bonus) "Never get hit by a train, because if you do, you're an idiot."

**Diana Fernandes**  
High school: The moment may be temporary, but the memory is forever.

**Jorge Fernandes**  
My favourite memory of high school is the good time I had in the games club. I plan to go to University and go in to business. I want to say to everyone, your minds are like parachutes, they only function when open.

**Michelle "Mouse" Fewchuk**  
Going to the ratt with the gang, and movies at Bob's. Works for me; gotta love me. Live for today and party more tomorrow.

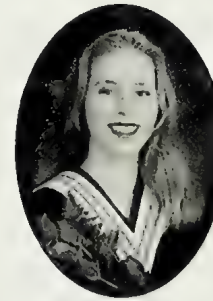

**Colin W Ficht**  
My future ambitions are to become a journeyman mechanic and make a lot of money. A favorite saying of mine is Gumby! A favorite memory of high school is knowing that there are always teachers there to help. Bye.

**Brent Findling**  
I plan to go to university, become a fireman, rescue a rich bikini model and marry her. Look for me in the '95 draft. Thanks for the laughs. Fat.

**Ian "Cave-man" Fraser**  
In the future, I would like to major in ecology, zoology & hockey will always be a part of my life. My favorite memories of high school were Mr. Bereton's class and spending time with my bud Yolanda

Shane Goodyear  
I plan to be a profes-  
sional bum. My  
words of wisdom are  
don't eat yellow  
snow.

Sean Graham  
I plan to study psy-  
chology at the U of  
A. Then I can study  
all those demented  
minds out there and  
maybe add a few to  
the crowd. I really  
enjoyed all the com-  
plaining I did, and  
thanks to all my  
friends for a great 3  
years

Sharon Graham  
In 10 yrs I plan to  
still be having a good  
time and live some-  
where in B.C. Re-  
member: Vancouver -  
Nirvana, New Yrs in  
Seattle & all the rad  
times in Alb. Beach  
with Crystal S, Sarah  
K, Ryan C. - Dazed  
and confused.

Cody Gretzan  
There are only a few  
simple rules in life  
you have to live by:  
Play hard play rough  
and never lose the  
last game... but al-  
ways remember, it's  
not the size of the  
dog in the fight, but  
the size of the fight  
in the dog!

Jill Griffiths  
My future ambition is  
to become a M.D.  
after completing a  
genetics program at  
the U. of A. I'll  
never forget great  
times with great  
friends, Tommies in  
trees, New Year's  
'93! "We stand today  
on the edge of a new  
frontier." JFK

Nathan Gunsch

Kristina Haddad  
I plan to go to col-  
lege to become a  
teacher's aide. Re-  
membering the good  
times with my  
friends. Live for to-  
day, and never for-  
get who your friends  
are. "I don't care."

Kris Harding  
My future plans in-  
clude: majoring in  
music at NBC, and  
eventually find an  
occupation in the  
music industry.

Samantha Jaswal  
3 years of smiles,  
laughter and tears.  
Thanks to sister's of  
darkness, and to my  
Benetton crew. In 10  
years I'll have solved  
the JFK conspiracy  
but until then I'll be  
5-stepping. PEACE  
OUT!

Joshua Jenkinson

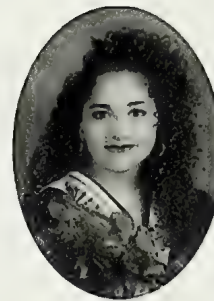

David Johnson  
Yep, the year is out  
and I'm all set to  
spend more of the  
rest of my life at  
university to become  
a doctor. FM. Driving  
the ETS bus to  
school and throwing  
not-so surprise parties.  
C-Ya all in ten  
years!

Tabreez Lila  
I had a great time in my one year of high school in Canada. I hope to be successful and rich, and to go to Africa for a warm safari. "Better go and make a net than yearn for fish at the edge of a pond."

Collis Lim

Amy Lo  
I will always remember Europe '93 One word: Cochem. Laura, thanks for introducing me to your friend on New Year's. Mes amis merci beaucoup! See you all on the Cote d'Azur! "Jaime the key says 6 not 9!" Mind the gap.

Bob Lo

Kurt Lockett  
I'm going to NAIT next year. To Karyn and all the good times we had together and all my friends (Dan, Mike) Saying you have nothing to lose is like saying "I don't really care."

Casey Loga  
Well boys, I hope  
when we are set in  
our ways we won't  
forget the great times  
we've had and let's  
not lose touch eh! I  
hope to be successful  
in whatever I choose  
to do These were the  
best times ever. Hey  
boys, two words!

Byron Lopez  
My goal in life: to  
be successful in  
whatever I choose to  
do, to be with the  
one I love and to  
reach the unreach-  
able star.

Ilma Lucas

Thanks to all my  
good friends. Live  
love and laugh.  
Wishing everyone  
the best. Remember  
me because I'll prob-  
ably be asking you  
for a job. Steven  
Seagal is the best as  
if we didn't already  
know.

Kara Magee  
Our times here have  
ended but the mem-  
ories and experiences  
we have gained will  
live forever. I have  
learned that there is  
no substitute for  
good friends - thanks  
for the memories  
guys!

Billie Mah  
I want to become a  
comic book artist. To  
enter the comic book  
industry has been a  
life long ambition and  
I hope to prosper in  
that field successfully.

 Memories are only as  
 good as you make  
 them! We made so  
 many. Laughs on the  
 wall, in the hall, and  
 in the cafe I will  
 never forget! Thanks  
 boys! Hey Reg, what  
 did you say to him?  
 Me cheat? Never!

Blaine Prangnell  
My favourite memory from school would have to be EUROPE '94. I plan to go to some kind of post - secondary facility after I graduate.

Eleen R Prasad  
Now that I am finally out of school, I wish to become rich, famous happy and to never gain weight. Peace to all brothers and sisters with "Ed." Attitudes. Keep in touch. "Spindu".

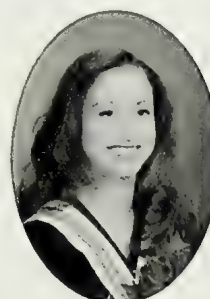

Coralee Pruss  
My favourite memory was my trip to flip land with Brian L. I want to wish my friends all the luck and love in the future I bye!

Wilson Quan  
Colo. '91 playing with the greats. 92 City Champs. Scott remember the pole? To sport boys I grew up with, good luck. Thanks to all that helped me in school. Great day Oct 3. The NFL NBA MLB and CFL one day the "Rice Rocket".

Melissa Rakovszky  
I'll always remember the good times with all the "Ramp rats". Love that "black putty". S-S-S-See ya! But I wouldn't wanna be ya!!! I'm free at last!

Shereen Ram  
I will never forget my friends in high school. They have given me great advice when I needed it. Best wishes to them all in the future. I plan to study Law at U of A and fulfill my dream of becoming rich.

Christine Ramdath  
I'll never forget Mr Myck & Mr B thanks for caring and your support. Mr.D stay cool and don't forget my postcard! My 18th birthday! Always believe in your dreams, because it is the key that opens a door to freedom!

Allisen Rego  
I plan to become a travel agent and marry a hot Portuguese man. I remember coke and moonshine, April 12 1993, and special times with special people. Words of wisdom: Save your skips for summer of Grade 12!

James Reiter

Lori Reitrer  
I plan to continue my education in hairstyling and to marry rich. Friends are the best memories ever. Whatever. Live life to the fullest!

Sarah Remington

Kevin Robillard  
I would like to become a physiotherapist or a sports trainer. My favourite memory is of the Band Trip. My favourite saying is "I don't think so Tim" and some words of wisdom are "Don't eat yellow snow."

Christopher Robinson

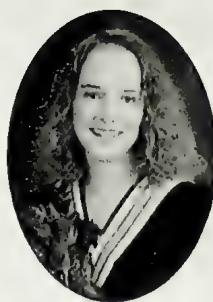

Jodie Rodd  
To meet Bill Ran-  
ford. My friends.  
Stop sawing the  
table!!! Do not light  
a lighter if you are  
buried alive!

Valerie Rogal  
I would like to be a  
medical office assis-  
tant. My most im-  
portant memory of  
high school is getting  
the grade eleven  
honours award.  
Listen to others  
because they know  
what they are talking  
about.

Dana Romijn  
The past was an ex-  
perience we won't  
forget and as for the  
future... well "it  
belongs to those who  
believe in the beauty  
of their dreams" So  
let your imagination  
run free and if you  
desire it-acquire  
it.Rem.the animals!

Petrina Rondeau  
My future plans in-  
clude shopping, trav-  
elling the world and  
retiring at 18. Re-  
member that your  
dreams are your  
most valuable pos-  
session so don't ever  
forget them and  
don't let anybody  
else take them away.

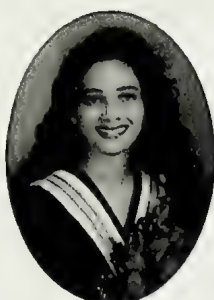

Shannon Rosing  
My ambition is to  
become a dietary  
technician. To all my  
friends: I will never  
forget any of you.  
Always be true to  
yourself. Never  
underestimate your  
personal power.

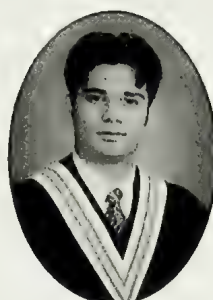

Aaron Rustad  
Over the past three  
years its all been  
fun. With the gang  
that plays hockey.  
Dometro's class and  
all the laughs. Some  
day I shall play  
hockey and be a  
writer. No more to  
say. Rusty (Grinch)

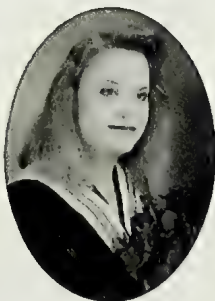

Mickey Sahib  
I'll always remember  
high school and good  
times with the guys.  
To all my friends:  
Live long & phos-  
phorus (man, that  
CHEM class is get-  
ting to me) "The key  
to immortality is first  
living a life worth  
remembering"  
(B. Lee)

Thanx 2 all the boyz  
for all good times.  
RD summer beats  
93. Thanx 2 MM 4  
being a big part of  
my life. See ya!

Tanya Scanlon  
My ambition is to  
become a veteri-  
narian. My most  
favourite memory of  
high school is all the  
great times with my  
friends. HEY! Jay  
none of that! Good  
luck to all the grads!

Christine Schoep  
To all my friends at  
M.E. you know who  
you are. Here's to  
the class of '94 -  
high school only  
lasts for so long,  
make it memorable.  
-Eh buddies!

Hardeep S. Sehra  
My favourite mem-  
ories are coming to  
class late every day  
for 3 years. I want  
to be a research  
scientist of some  
sort. My philosophy  
is never fight fire  
with fire when you  
can beat it with  
water.

Curt Semeniuk

Gerald Semler  
Ambitions: Make it big in life and go skiing every weekend. Favourite memory is May long weekend '93 (upchuck chewy). No guts, no glory. Make it big in life while you are young and enjoy it until you die.

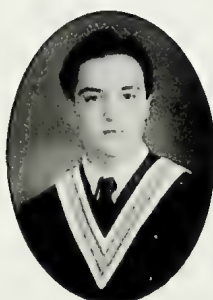

Brad Serediak  
My ambitions are to be a cop and/or go into the faculty of business! My favourite memory is Europe '93! Holy hummer! If at first you don't succeed, give up and try again later (maybe)

Cara Shalapay

Wyan Shankaruk  
Future plans: get the government to make me an engineer play rugby until I die. Never give up on my dreams. To be remembered as a person who did what he wanted to do in life. To marry my true love. Yours truly, Shank.

Barbie-Ann Shergill

Ben Shillabeer  
My goal is to play drums for Peter Gabriel and for my band to sell out the Coliseum. The '92 band trip was boss. My favourite saying: I'm gonna make it big. Words of wisdom: Always lay down the back beat! LATER HOMES!!

Joanne Shiu  
I hope to travel all over the world & live life to its fullest & happiest. The F-U-N times my friends & I have shared are unforgettable! Thanks to the people in my life for endless support!

Kayam Shivji  
To my parents thanx for all your love & support, good luck to all my boyz at M.E. and Shep. I hope to accomplish all my goals in life. The first one, to get the words "It's light" in=to the dictionary.

Scott Shymko  
I plan on a career in Law Enforcement. Best memory is June 14/92 to the present. Hip did it well I did. Thanks to all my friends for all the help and support. (Here's to my 73, Scamp.)

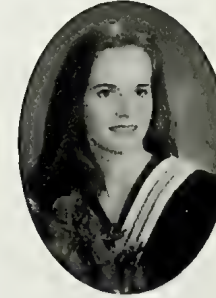

Shawna Simmonds  
Jen always remember the games with Dougie and Arnie.

Julie Simon  
Europe '93 was the best! Hastings will never forget us. Thanks to everyone for the memories. In our hearts we'll always be together. I love you too Dave "One love, One blood, One life you got to do what you should."

Crystal Sinclair

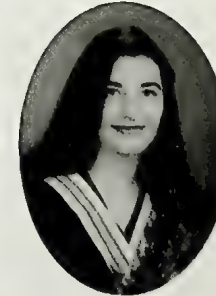

Margaret Sinclair

Phoebe Singh

Crystal Skibinski  
In the future I hope to be healthy and having fun. New Year's in Seattle and Nirvana concert in Vancouver with Sharon and Sarah. Alberta Beach long weekends. Perfect bliss and great joy = Nirvana.

Jason Slaby

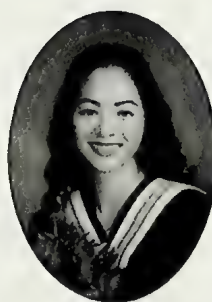

Betty Sleiman  
My future plans are to attend the U of A in the faculty of education. I would like to thank my friends for always being there and for all the good times we had. Remember friends come and go but sisters last forever.

Shawn Smith  
These past three years have been a trip. Football and Rugby crew put me through...well you how know it is eh? When you see that big rig going over the North Sask River at 180 clicks yell "Way to ride her in style Pook!"

Tony Smith

Cindy Song

Ebony Sorokowsky  
My ambition if to major in law enforcement. I would like to remember all my friends and teachers, especially Mr. Cameron. Thanks for your support, Bud. Party hardy!

Melanie Soucy

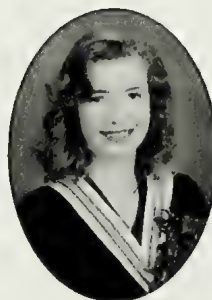

Tennille Stadnick  
I'll never forget the good times. To my friends, may we always stay together, true friends are for life. Remember: The journey of a thousand miles begins with just one step. Never give up!

Shari Stasiuk  
Yip-Yip-Yipee!! It's over. I'll never forget my drama friends - I'm going to miss you! boohoo. I also won't forget Mr. Sutherland's Math class with Dana - "psycho-chicken" - stay young and have fun, but be good; well mostly good ha!

Christina Stelmack  
I plan to live rich die rich & find myself in Europe. So many wicked times. Never forget Feemy (rebar), Julie and of course Connie at Sylvan.... live life and someday we will see things as they truly are - infinite.....

Laura Stewart

Jolene Stitchman

Bhullar Sukhpal  
My ambition is to eventually get rich. Remembering the good times with the gang, at the wall, looking up and down the halls.

"You're young only once, have fun."  
- Bobby

Raymond Sung  
If I choose to set myself on memory's bliss, Europe, track football, Musicfest will forever be remembered. Here's to all my buddies: "To dream the impossible dream," - who else but always "the" man. Razor always has the edge

Amber Supcene  
"If what we do not yet understand is like what we do understand about life, then the unknown will be challenging, interesting, and beautiful."  
- D. Russell  
Good luck!

Tab Sydor  
Remember the good,  
the bad, all the great  
times we've had with  
true friends imprinted  
in our memories for-  
ever. Do everything  
like it is the last time  
you are doing it. Suc-  
ceed, be happy, and  
have fun. Love U  
guys, I'll miss you.

Colin Tabler

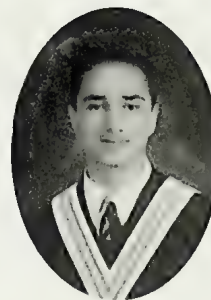

Cindy Tan  
MEMORIES... many  
unforgettable ones! Its a  
shock to look back and  
discover how quickly  
time flies. These 3 years  
had been GREAT! Curly  
Banch: Keep those hairs  
CURLY! Our Company  
... FUN, Our talk ...  
UNBELIEVABLE! Been  
FUN! Bye....

Deserae Taschuk  
REMEMBERING all  
the good times; sum-  
mer of '93 and chil-  
lin' with the gang.  
Who here thinks  
they're a fire engine?  
Life's a risk, you  
said it yourself.  
FOREVER  
Good luck to  
everyone.

Bobby Tatter

Rob Tchir  
To all my friends  
who made my life in  
High School to be the  
best ever. And "For  
those about to rock  
we salute you. Hey  
guys, let's go and  
play pool at my  
house tonight. All  
those who went to  
Europe we shall not  
forget the times."

Damara Terry

is to read minds. My  
favourite memory is  
GRADUATING! My  
favourite saying is  
"Are you serious?!"  
My words of wisdom  
are always remember  
your friends!

Bruce Thompson  
To all the times  
spent on the hockey  
wall with the fellas.  
You know who you  
are. I'll miss the  
gang and the times  
we had.

"Live laugh, and  
don't worry about  
it."

Robert Tiedemann

Vanessa M Tomchack  
My ambition is to  
kick butt in the facul-  
ty of Rehab and in  
some small way make  
people's lives better.  
My favourite memory  
is winning the gold at  
Kiwanis Festival with  
Miss N directing  
directing us in '93 #1  
Band Geek!

Jason S. Tomiuk  
Football trip to  
Calgary. You don't  
have to drink to have  
a good time, but it  
helps. You know the  
saying you can lead  
a horse to water but  
you can't make him  
drink, I say bull,  
feed him salt.

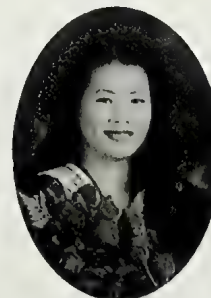

Connie Toornstra  
My future ambition  
is to live life to its  
fullest, exploring  
every warm part of  
the world. Remem-  
ber the times at  
SYLVAN LAKE,  
with friends and  
those (Italian men)  
Hey Buddies. Don't  
do anything I would!

Minh Trac

Chau Tran  
Whoa there guys! It's  
finally over. And  
remember when we:  
"Go hastily among  
the noise and voices  
of hate but only  
remembering, what  
did I do to be dis-  
criminated by the  
unrecognized faces,  
glaring hatefully at  
me."

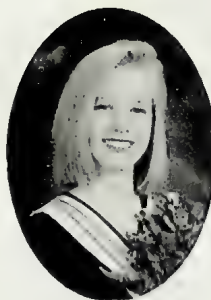

Jennifer Trela  
I plan to go into  
graphic communica-  
tions and marry  
someone rich. I'll al-  
ways remember  
Dougie, Arnie and all  
the memories made  
during High School.  
Thanks to my family  
and friends for put-  
ting up with me.

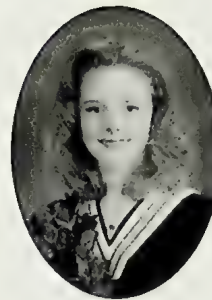

Wes Tropak  
(AKA "Pizzasurfer")  
I'll always remember Europe '93 - what a blast. To my friends, thanks for the good times. Ambitions? Who knows? "The supreme reality of our time is ...the vulnerability of this planet." -JFK

Julie Trottier  
My ambition in life is to be healthy, to be happy and most of all have a wonderful husband. Remember the great times with Chris on Canada day! Week-ends! Special times with other people!

Martha Useda  
I plan to become an underpaid cop. I remember close encounters with Bobby's lawn, Def Leopard, Ronda's party and the gang. Favourite saying: "Oh joy!"

Nicole Vandenburg

Laura Vander Hoek  
To my bestest pals: Justin, Alison(s), and the rest of ya' good luck in the future 'cause mine will be better HA!! Thanks for the good memories. Justin, I will remember most. Grad was good but after-grad was great I'm in love...AGAIN!

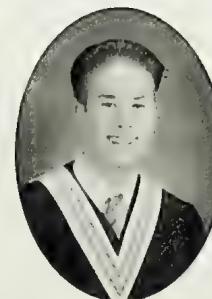

Crystal Vecchio  
My life time dream is to see the rain-forest before it's gone. Life is a very special thing don't waste it. To all my friends love ya all keep in touch. Peace and happiness to everyone. Love ya!

Rohitesh Verma  
"Not to dark, not too light, a shade of brown is just right!" I plan to live a good life and retire along the beaches of Fiji Thanks to all my friends for making my years at M.E. so memorable! Hoya!!

Rob Voysey  
I plan on going to University or NAIT. Thanks to the guys on the rugby team for all the great times. Remember: "We're here for a good time, not a long time, so have a good time."

Kevin Vye

Clinton Wakaruk  
It's been a killer year. The parties were awesome and I hope next year is the same, or even better. A few words of advice: Stay in school, don't be a fool, PEACE!

Chayse Waldrum

Tori (Lil) Wallbank  
Happy times with good friends and true loves, Camping with the gang. Memories with Chris and Jen that will never be forgotten. "Light, love, life"

John Warring

Keith Weller

Colleen Werenka

Dalyce Wesley  
My ambition in life  
is to acheive my bus-  
iness degree and  
become a high pow-  
ered executive.  
While living on my  
Quarter Horse Ranch  
with my family,  
good luck to you all!

Chris White  
I want to be an oscar  
winning actor My  
best memory of high  
school was having  
amnesia and deja vu  
at the same time.  
"What if birds were  
tickled by feathers"

Deanna White  
I have actually  
graduated. It has  
been a blast, just  
hanging and playing  
pool and die. I am  
going to party it up  
with the gang. Chill  
out, Kyle honey. I  
will be there, when I  
am needed.

Leanne M. Williams  
May all our dreams  
and asirations be  
fulfilled.

Mike Wojcichowsky  
Do not take life too  
seriously; you will  
never get out of it  
alive-Hubbard I look  
forward to building a  
bomb and starting  
WWIII. I hope to  
stop smashing up my  
parent's cars. I am  
off to U of A!

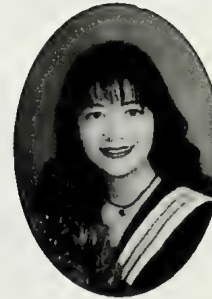

Jaime Wolanski  
It's been great!! I'll  
never forget rugby  
(Tank), Rene, Eur-  
ope (crabs, club  
Malibu, live wires,  
Belgian men, shadow  
puppets, and thanks  
Kory!!), and all my  
other friends, but  
most of all, Dopey  
and Happy: I luv u  
guys! Never forget!

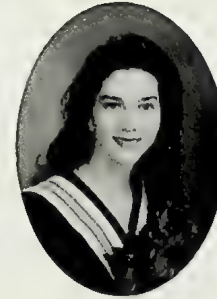

Gary Wong  
As a Chinaman my  
plans in life are to  
have manny little  
Wongsters, to live in  
harmony, good  
health & to marry a  
fine, tall Chinese  
goddess who will use  
me as her "boytoy".  
Success lies in  
choosing the Wight  
from the Wong

Karen Wong

Jolene Woywitka

Shirnet Wright

Levi Wynnyk  
M.E. was great. The  
late nights on the  
Tramp were a blast.  
Cruising 118 in the  
Honda was the best,  
and the St. Albert  
chase was fun too.  
One day I will look  
back on these mem-  
ories and cherish  
them, till then.....  
Too tired

Toby Yaltho  
One day I'll move to  
the coast, be a  
marine biologist  
(fisherman), and  
work on my tan.  
Remember, "If you  
are going to do  
something tonight  
that you will be  
sorry for tomorrow  
...sleep late."

Nader Yasin

Michael Yassine  
"Knowledge is the key, and I'm still searching for it" I hope to be a good influence on those I know & those in the future. I'll never stop searching for the keys of success! To hang with the boys and find true love.

Jennifer Yereimy  
Yeehaw! I'm out of here. Never forget cruisin with the sprint girlz and the first class porcelain at girlz nite out. "Never settle 4 second best when u can get the best." Thanx 4 the laughs gang! Luv those corndogs!

Geoff Yung

Krista Zaborski  
My future ambition is to be a successful author. A favourite memory is partying with the gang & Europe 93. "We can choose to throw stones, to stumble on them, to climb over them, or to build with them."

W.A. Ward

Tobin Zarowny

Rodd Zawacky

Daniel Grant

# La Mode

## High Fashion At LaZerte

Lights! Cameras! Action! The date: March 17, 1994. The event: The Grad Fashion Show 1994. Roll camera!

Yes it's that time of year again. Soon after the melting of the snow the grade twelves at LaZerte tend to have a yearning to see others in tuxedos and long flowing gowns. For it is at this time we realize that there are only two months until the Grad Banquet. AAAAHHHH!

For those who love to leave things right to the last moment, or who need that last minute pair of shoes or pair of earrings there is the annual fashion show.

This year's event, organized

by Marie Kuczaba and Laura Stewart paid homage to Hollywood, its movies, and its stars. The models began their training working with a top model who taught them the finer points of such things as walking. All these years and we thought we were doing it correctly. The secret is to walk as if you have coins clenched between the cheeks of your butt. After all the preparation and stagefright, the models finally stepped out in front of the hot lights to show off their casual wear and formal wear alike, set to a rather unique soundtrack.

Top: Penguins they're not. Mr. Dunwoody, Mr. Auton, Paul Shamchuk, and Dave Mudaliar do a rather convincing impression, though.

Above: Tab Sydor loves the attention he's getting from Dana Romijn (left) and Tennille Stadnick.

Above: Ready for a night on the town! Cathy Dytiuk and Paul Shamchuk are dressed to the T.

# Valedictory Address

By Jill Griffiths

Good evening once again honoured guests, parents, teachers, and most importantly fellow graduands. We've done it. We have survived two years, eight months, and eleven days of high school life and now proudly make our debut as the M.E. LaZerte graduating class of 1994. The hats we wear tonight provide us with a tangible reminder of our advancement into a new avenue. In playing the great Monopoly game of life, we have purchased the Reading Railroad, crossed Atlantic Avenue, and now await our next move. While we are unable to dictate the location that this roll of the dice will lead us, there are certain choices that we must be prepared to make upon our arrival.

"A dream is like a river, ever changing as it flows. And the dreamer's just a vessel that must follow where it goes." Our high school careers have prepared us with the necessary skills and foundation of knowledge to become vessels to our dreams, but it is now up to each of us to make the essential choice to become a true voyageur. Our school motto has taught us that *fortes fortuna juvat*: fortune favours the strong, and it is with this strength that we must press forward toward the future. Although we all share a common source, we must each embark upon an individual journey in an attempt to fulfill our full potential. It is now time to recall and put into practical use the three years' worth of problem solving techniques that we have rehearsed so many times in the classroom and use these skills to overcome the obstacles in our pathways to success. It is time to build upon the communication skills that we have acquired and use them to further understand and interact with the chang-

ing world around us. Since the relieving day when we as children discovered that a tree will not grow from our stomachs if we swallowed apple seeds, we have continued to grow in our knowledge and are now prepared to begin making the essential choices that will affect the rest of our lives.

As children, we were overjoyed when we finally gained the necessary colour-coordination skills to choose our own clothes before school each morning. Upon our arrival at M.E. LaZerte, we were faced with the peril of arena scheduling and our options multiplied as we had to decide if we would rather sleep until 9:00 AM or be done school by 1:30. The cafeteria posed another daily dilemma: should we consume fries and gravy or jello for lunch? While these choices now seem rather insignificant, they have each prepared us further for the step we are now taking. Graduands, as we commence tonight, I urge you not only to remember what these past decisions have taught us, but also to begin making new ones.

Choose to persevere and strengthen yourself through the challenges that cross your path instead of letting them defeat you. Real personal growth comes from overcoming life's obstacles, not avoiding them. Choose to accept every opportunity that comes your way. To step down later is far better than to have missed a chance to ascend to greater heights. Choose to become a positive influence in your local, national, and global communities. "No man is an island" and it is now up to us to change and improve our world. Choose to savour the simple things in life. Yesterdays pass too quickly and tomorrows may never come. As a wise friend once

said, "Live in colour, not black and white". Choose to be all that you can be. Both individually and together, we all have the potential to accomplish great things. Never underestimate yourself. Choose to maintain high standards, because your goals deserve to be reached. Contrary to the laws of physics, what goes up does not have to come down. Always aim higher. Lastly, "choose to chance the rapids, and dare to dance the tides". Life is not a spectator sport, so get in the game. Winds will blow as long as our sails are open, so step into your river while the waters are calling until you reach your desired destination.

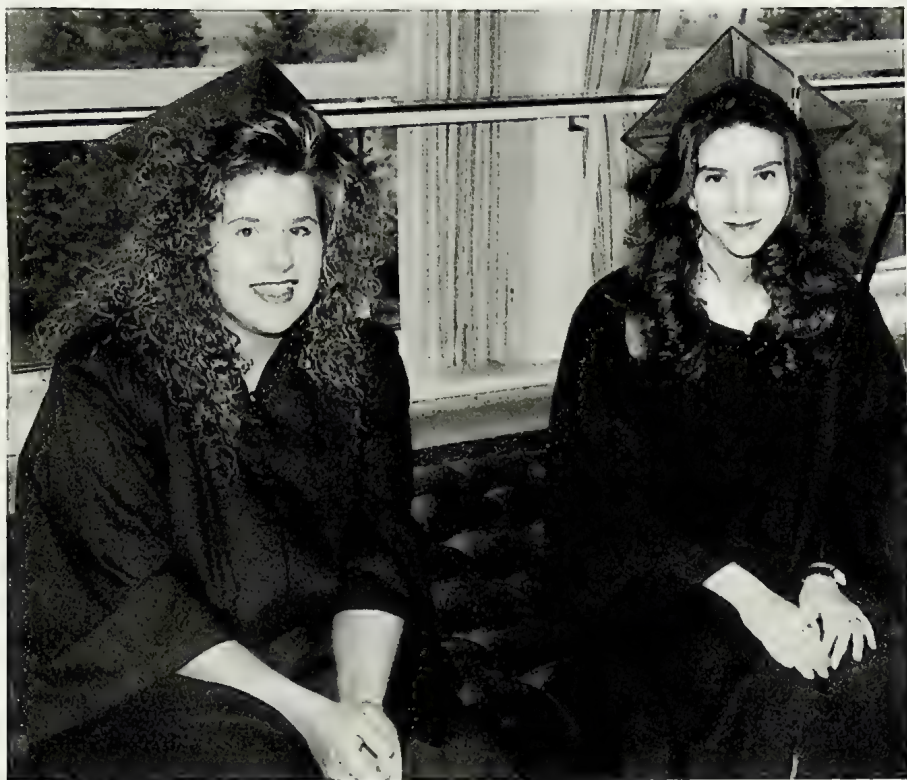

It is not an easy task that we face from this point on. We must unite as members of the new generation and venture into the world to claim it as the grounds for our success. The obstacles in our way are many, and we must either overcome them or fall in defeat. Fellow graduands, the pistol has been fired. While the smoke is still lingering in the air, we must push away from our starting blocks and begin the endurance test known as "the rest of our lives". We must keep our eyes focussed on the horizon, enjoy the passing scenery, but never look back. Celebrate! It is now our chance to purchase boardwalk, we're only one step away from "go". As Pascal once said, "Rivers are roads which move and carry us whither we desire to go". We have the desire. Our lives are roads. It is our time. It is our chance. We are today.

# Class of 1994 History

Jaime Wolansky: Good evening parents, teachers, honours guests, and of course fellow graduands. When we were to give this speech we were told to make it simple.

Carrie-Lynn Coghlan: So, for those of you who don't know, we are the class historians. That is to say, we are here to tell you the history of the graduating class.

We're here to take you on a journey. A journey into the past three years of our lives known . . . as high school.

We will start with none other than the beginning, Grade 10 registration. O.K. go on, pull it out of the back of your mind I know you've tried to forget, but you know as well as everyone in this hall does, that you were just as scared, lost, dressed-up and geeky as the rest of us were.

Yes, even you, Cody Gretzan!!

And what about the first day of high school!

Wandering around aimlessly, trying to find your classes, especially those trying to find Mrs. Nordheimer's class. To this day I think people still have a hard time finding it. After the first few weeks, the high school atmosphere began to rub off on us, and we suddenly became knowledgeable in the ways of high school life.

Many of us started to create our own classes. Remember Spareology 10 and Mall 101? Skipping became a novelty that still hasn't worn off. But then, during one of our most enlightening English 10 classes, the bomb was dropped.

The attendance report was to arrive home the following afternoon. Some people panicked, and others began to develop the perfect plan to intercept that letter, even if it meant running home at lunch to wait on the doorstep for the mailman.

Although this worked for some, other's parent's found out the truth: their kid was no angel.

By the way, did you see Gerald Semler for the next month after?

I guess now we've just come up with some better excuses, like using "hemmoraging" as an excuse to get out of Mr. Smith's Social Studies 20 class, right Janette Plante? Speaking of Social 20, how about the 20T trip to Europe?

We had some bad luck with hotel rooms, but live wires hanging from the ceiling and bugs in the bathtub only made it more interesting. Marie Kuczaba had a few problems with her sight, especially when she failed to see a lamp post and walked right into it!! Most of us had a problem with the washrooms too.

Julie Simon and Kim Malonik had a search party in their bathroom trying to find the toilet flusher handle, while Roger Supernault and Shawn Hawrelak found that a mere flick of the light switch would flush theirs. When Kory Udholm tried to hurdle a fence, he landed flat on his face, and his camera went flying and broke.

Wes Tropak also got to meet the pavement when he got a little excited over his pizza and tripped as he was running to catch the us. This was explainable seeing as most of us were getting a little sick of the beef that was still mooing in our plates.

Ms. Saley found herself a new nickname when they found out she could do one heck of an Elvis impersonation. All in all, they had a fabulous time, and

I'm sure a lot of them will someday return overseas.

I think that next time, though, Chantal Abbot will consider taking a suit case that weighs a little less than 41 kilograms.

Because we were grade elevens, most of us started to get our licenses. And with them came fun, freedom, and speeding tickets. Since then, I've heard that Ian Kupidy has developed quite a heavy foot. Unfortunately, some people also got to experience their first car crash.

And their second one too, right Michael Wojcichowsky?

And now that we're in grade twelve, our final year, we have mastered the art of many things. Along with the saying "practise makes perfect", we can all say that we perfected the art of weekend parties. I'm sure all of us, sitting now amongst our friends, will have an unforgettable memory - or one completely forgotten. Just like when Jennifer Yermiy invited over "The girls".

Quite a memorable occasion, except that Jolene

Above: Our class historians, Carrie-Lynn Coghlan and Jaime Wolansky, at the grad banquet.

Pozniak, Michelle Borecki, and Crystal Sinclair don't quite recall how they got home.

And honestly, Tennille Stadnick, I do believe that you didn't pee your pants at that football party!! Of course, being from LaZerte it is almost mandatory to love sports.

But, before we go any further, we have a little story to share with you about an Eskimo-Stampede's game at the stadium. For mere comfort, Lesley Ewoniak decided to remove her shoes at the end of halftime.

Little did she know that at the end of the game, her shoes would not be found. After a minute of panic and desperate searching, it became evident that they had gone missing.

So, with no other choice, we had to escort her to her parent's van, we blocks away, without them noticing, in her stocking feet.

Now, the funny part. Being the nice, mature friends that we are, her shoes accidentally were, uh, put into my backpack. And so, for your grad gift Les,

here are your shoes!!! Did you actually think someone would want to steal these things?

Speaking of sports, in the past few years, there has been a rivalry between the girls soccer and rugby teams.

We apologize for any hard feelings, so we wish to clear it up.

With words that a wise man once told me, soccer is a lady's sport played by hooligans, whereas rugby is a hooligan sport played by ladies. Enough said.

We also have a very prominent hockey population at M.E. LaZerte who we are undyingly grateful to.

Not only are they patient enough to use their bulging muscles to hold up the wall at the top of the main staircase, but they also reduce the school's heating bill by blowing a lot of hot air.

None of these memories would be complete without our dedicated, hard-working, and psychotic teachers who provide much comic relief. We'll start with none other than one of our very own wonky french teachers, Miss Fowke, who charms us with her many interesting Saskatoon stories . . . Youppi!!

If there was to be an award given for the teacher with the best attendance, Ms. Stewart would definately win.

This is because of her stringently military tactics on tardy students.

We've also been blessed to have Mr. Sumyk join our staff this year. His sexy legs in green tights will be a lasting fashion statement at LaZerte. None of you mothers have to worry about their child when they are at school. Mrs. Malayko has seemingly adopted the whole school population!

And we could never figure out her ability to understand Mrs. Nordheimer's twisted sense of humour.

Even though Mr. Sutherland got married last summer, his classes still seem to be composed of the female gender. And between Mrs. Watt and Mrs. Fitzmaurice they could definately start up an accessory superstore.

And so concludes our evening of memories of good and bad alike.

And in the words of the great Mr. Bererton, "we're off like a herd of turtles!!"

Thank you and good night.

# Make No Mistakes, This Is No Dead End

Well, here we are - at the end of the *Map of Yesterday*. We hope that your journey has been a pleasant one, filled mainly with laughs and smiles. It's been a lot of work (and, yes fun) preparing this map for you. With luck, we not only entertained you and reminded you of those good times you had in high school, but hopefully we managed to show you that our school motto does indeed hold true - "*Fortes fortuna juvat*" - that fortune does indeed favour the strong. Now, remember, this book has come to a dead end, but that does not mean that life has to as well. Life has no dead ends, only detours, some long, some short. And with that we hope that you will be able to make for yourself a map full of interesting and exciting detours - and take this along with you; its always nice to know where you have travelled before.
